Dear Paulo A. F. Martins

As President of the Technical University of Denmark I take great pleasure in informing you that the Academic Council of our University, on recommendation of DTU Mechanical Engineering, has decided to confer upon you the degree "doctor technices honoris causa" which is the highest honour our University can confer.

We sincerely hope that you are willing to accept the degree, which will be conferred upon you at our annual Commemoration Day on May 4, 2018.

Senior adviser Niels Grolin will contact you regarding the practical details about your participation in the commemoration day.

We look forward to hearing from you.

Best regards,

Anders Bjarklev
President
