## Expertise

Project Management  
Event Organization  
Logistics Planning  
Transport Control and  
Optimization

I have a high capacity to adapt and learning which facilitates me to execute all tasks, always planning with concern to achieve the proposed goals. With an immense determination to circle the adversities to accomplish the best results. My abilities and aptitude for new situations join with the facility to execute simultaneous duties gave me the confidence for daring new challenges. Those characteristics were acquired on my professional background and as a result of acting in such diverse environments.
