

INTRODUCTION

SDEE – Sustainable Development,
Energy and Environment

Tiago Domingos
tdomingos@tecnico.ulisboa.pt

23 September 2020

COURSE CHARACTERISTICS

Doctoral Course

- Contact time equal to 2h/week
- Additional workload equal to ~11h/week
- Greater emphasis on autonomous learning and work
- Closer to research

Course Material

- Student class notes
- Powerpoint presentations
- Papers, book chapters, etc.

EVALUATION

- Course project, with multiple deliveries, all reviewed and graded
- 1st deadline: 6th October, definition and motivation for the project
- Preliminary joint discussion of the themes in the 30th September class
- The course project should address a broad sustainability issue, placing it in a long historical context and analysing its potential future development and possible solutions (some considered in more detail)
