

AUTOHYDRO, AUTOSHIP INSTALLATION GUIDE

FOLLOW THE INSTRUCTIONS CAREFULLY, IT'S VERY IMPORTANT TO HAVE A CORRECT FIRST INSTALLATION, **IF YOU MAKE A MISTAKE IT WILL NEVER WORK**

STEP 1

Connect to CENTEC network through the Windows 10 VPN Service (type VPN in the Windows search bar), using the following credentials:

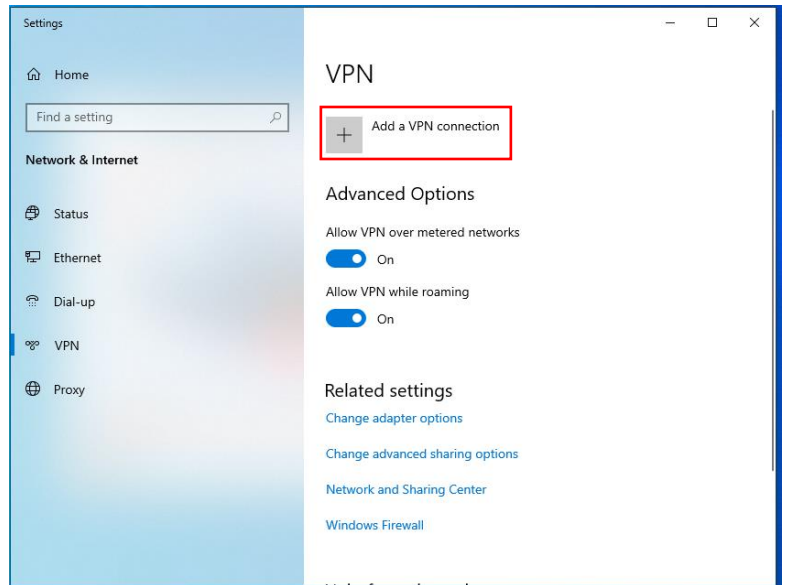

Server: 193.136.153.78

User: aluno

Password: AKL0156lia

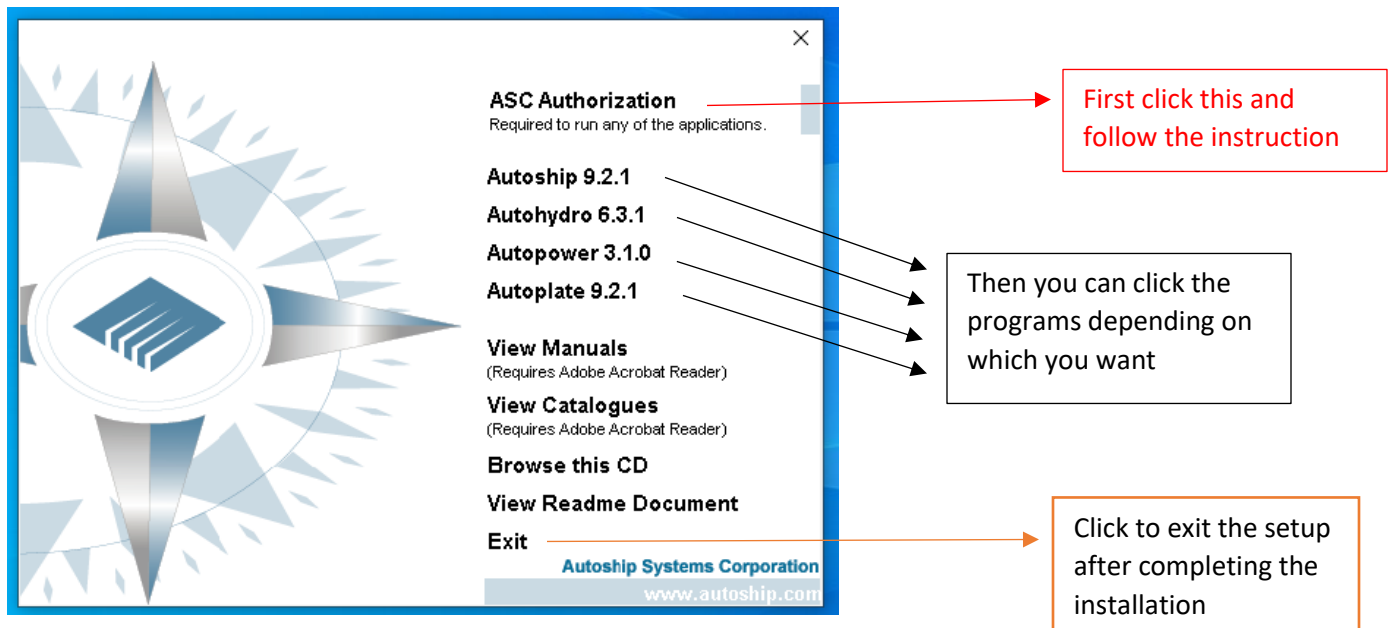

(Internet access should go down, which is normal)

**IF YOU DO NOT CONNECT TO THE VPN FIRST,
THE INSTALLATION WILL NOT WORK**

STEP 2

Open the **auto2009** folder, then **run the setup32** file, the window below should appear:

STEP 3

Go to **This pc > Local Disk > Program files (x86) > ASC > Lock > Lock Settings** and execute this file.

The following window should show up.

Write **192.168.1.195** on the right of the programs you installed
