

**DEPARTMENT  
OF COMPUTER SCIENCE  
AND ENGINEERING**

**BIENNIAL REPORT 2015-2016**

## 1. Welcome Letter

This is the second time this report has been published, - the first one was issued in January 2015 (DEI Annual Report 2014) -, and covered the period 2015-2016, making possible a critical appreciation of the evolution of our main activities and outcomes at TÉCNICO LISBOA and in society in recent years.

The outstanding evolution can be seen is the result of sustained efforts in delivering better results in our ongoing activities and better real time monitoring focused on continuously improving processes. Innovative although sometimes disruptive initiatives, focused on increasing the pedagogic success ratio of our students, have been developed and implemented. By strengthening and diversifying the human resources and the knowledge base of our academic staff, it has been possible to enable the on-going collective design of a strategic vision and the will to bring it to fruition it in the near future.

As outgoing Department Head (2013-2016) I am proud of the present mind set of DEI: its energy; ambition; commitment to teaching and research and the openness to learn and evolve. I am sure that the next leaders of DEI will find a fertile ground on which to build higher levels of academic excellence with and for our students and professors.

Lisbon, 28 October 2016

**José Tribolet**

President of DEI

## 2. DEI at Técnico Lisboa

The Department of Computer Science and Engineering (DEI – Departamento de Engenharia Informática) of Instituto Superior Técnico (TÉCNICO LISBOA), University of Lisbon, began its activities in September 1998.

DEI's mission is to contribute to the development of society by promoting university teaching of excellence in computer science and engineering (CS&E) in both undergraduate, master and postgraduate education. To achieve this goal, DEI supports activities in the research, development and innovation domains at the highest international level, in close cooperation with the key Portuguese research and development (R&D) institutes and industries.

This Department is responsible for and has been actively involved in the curricular development of TÉCNICO LISBOA's Undergraduate, Master (MSc) and Phd degrees in Computer Science and Engineering. The Undergraduate course, which corresponds to the Bologna 1st cycle, is offered both in the Alameda and Tagus campuses. The undergraduate curricula is aligned with ACM and IEEE curricular guidelines and the latest restructuring was particularly influenced by the 2013 versions. In partnership with the Electrical and Computer Engineering Department, it is co-responsible for the undergraduate and MSc degrees in Telecommunications and Informatic Engineering.

The Department is internally organized around five areas: architecture and operating systems; computer graphics and multimedia; artificial intelligence; algorithms and programming methodology and information systems. Its professors and students are involved in R&D projects through the Institute of Systems and Computer Engineering (INESC – Instituto de Engenharia de Sistemas e Computadores), the Institute of Telecommunications and the Institute for Systems and Robotics (ISR), which are all part of TÉCNICO LISBOA's academic eco-system.

DEI, as a collective of professors, students and academic staff, aims to maintain the dynamic balance of being institutionally solid, mature, and focused on the core CS&E competencies, while at the same time feeling and acting young while constantly seeking new, bold, untried and out-of-the-box initiatives that carve out a future which surely will bring a lot of changes.

Further information can be found at the DEI website:  
<https://fenix.tecnico.ulisboa.pt/departamentos/dei>

### 3. Activities of DEI

#### Developed in 2015-2016

Several main actions were implemented have been taken during the last biennium (2015-2016) to achieve the goals detailed in the Executive Commission program. This program included the nine main objectives detailed below:

##### 1. Consolidation of the new LEIC curriculum and improve student s' success

- Consolidation of the monitoring platform of teaching activities
- Creation of a mechanism for monitoring student attendance
- Promotion of the usage of e-learning contents

##### 2. Implementation of new curriculum for MEIC

- Creation of mechanisms to support student understanding of how to manage the new curriculum
- Improve MEIC visibility and attractivity to increase student recruitment at National and International levels

##### 3. Re-evaluation of all DEI degrees and masters programs, namely the LETI, METI and MISE

- Bring all programs to the same level of excellence

##### 4. Development of a new dynamics to improve the Department PhD programs in the diverse areas related to Computer Science and Engineering

- Definition of a sustainable grant program to support PhD students
- Initiation of the process of re-structuring of the curricular offers given by the PhD program
- Increased participation at the “ IST PhD day” an event organized by CS students
- Increased participation in several national PhD programs in transversal areas (in particular the CMU-Portugal program and the NetSys program).

##### 5. Increase the current level of quality of DEI services

- Increase training opportunities for non-teaching staff
- Start the implementation of a quality support system to support all DEI services
- Organisation of regular meetings with all staff

##### 6. Improve the Department facilities

- Implementation of a global project to improve outdoor infrastructures, in cooperation with the Department of Mechanics
- Re-equipment of DEI labs and teaching rooms, social gathering spaces, meeting rooms with multimedia and videoconference support

- Creation of shared spaces for non-resident teachers, Master's thesis students and PhD students
- Improvement of the spaces for student activities (nuclei of students, study rooms, meals and chill out spaces)
- Requalification of the infrastructures managed by DEI restricted to urgent interventions for budgetary reasons.

##### 7. Definition of task forces to engage all teaching staff in the Department's activities

- Support of teachers' initiatives involving important student activities such as Hackerschool, Programming contests, Information Security contest, CoderDojo, Codeweek
- Support of scientific areas initiatives to improve education, technology transfer and the connection to the society. For example, the implementation of a Games Laboratory
- Organization of an annual meeting to bring together all PhD students, the PhD DEI
- Organization of a Department wide strategic faculty meeting, D-DEI, to discuss medium and long term teaching and research initiatives

##### 8. Increase the involvement of DEI in the University organisational system

- Scheduling of regular meetings with the Scientific Council board of TÉCNICO LISBOA
- Proposal of regular meetings with the Pedagogical Council of TÉCNICO LISBOA
- Scheduling of a semestral meetings with all course's student representatives
- Scheduling of mothly meetings with the Management Board of TÉCNICO LISBOA and with Heads of other TÉCNICO LISBOA departments

##### 9. Development of effective entrepreneurship initiatives

- Inclusion of a course on entrepreneurship in MEIC
- Inclusion of a class on entrepreneurship in the introductory course IEI
- Organization of the cycle of conferences CIO@IST

#### Planned for 2017-2018

- Further improvement of our outreach activities with secondary schools
- Continuous improvement the Department's 1st and 2nd cycle degrees, and conclude the ongoing reform of the 3rd cycle program (doctoral studies)
- Improve the web presence of the Department through a tighter integration with the information from our research units, and a strong focus on our success stories
- Create awards to recognize the quality work conducted by students, faculty, and staff.
- Maintain the cycle of conferences CIO@IST

#### Long-term activities

- Conduct outreach activities with other departments of the university, in order to make the availability of computer science related courses more uniform across different degrees
- Achieve better integration between the activities of the Department and those of the research units that are associated with it
- Develop the departmental capabilities for individual academic career guidance and support, encouraging its medium and long-term planning

## 4. Education

The Department of Computer Science and Engineering (DEI) is currently offering the following bachelor degree programs (BSc), master degree programs (MSc) according to the Bologna Process, and PhD programs.

### Bachelor degree programs:

#### **Bologna Degree in Information Systems and Computer Engineering**

(LEIC – Licenciatura em Engenharia Informática e de Computadores),  
Alameda:

(<https://fenix.tecnico.ulisboa.pt/cursos/leic-a>)

Taguspark

(<https://fenix.tecnico.ulisboa.pt/cursos/leic-t>)

#### **Bologna Degree in Telecommunications and Informatics Engineering**

(LETI – Licenciatura Bolonha em Engenharia de Telecomunicações e Informática):

(<https://fenix.tecnico.ulisboa.pt/cursos/lerc>)

Jointly with the Department of Electrical and Computer Engineering (DEEC – Departamento de Engenharia Electrotécnica e de Computadores).

### Master degree programs:

#### **Bologna Master Degree in Information Systems and Computer Engineering at Alameda and Taguspark**

(MEIC – Mestrado em Engenharia Informática e de Computadores):  
at Alameda

(<https://fenix.tecnico.ulisboa.pt/cursos/meic-a>)

Taguspark

(<https://fenix.tecnico.ulisboa.pt/cursos/meic-t>)

#### **Bologna Master Degree in Telecommunications and Informatics Engineering**

(METI – Mestrado em Engenharia de Telecomunicações e Informática):

(<https://fenix.tecnico.ulisboa.pt/cursos/merc>)

Jointly with the Department of Electrical and Computer Engineering (DEEC – Departamento de Engenharia Electrotécnica e de Computadores).

#### **Bologna Master Degree in Information and Enterprise Systems**

(MISE – Mestrado em Informação e Sistemas Empresariais):

(<https://fenix.tecnico.ulisboa.pt/cursos/mise>)

Jointly with Universidade Aberta

#### **Master's in Biomedical Engineering,**

Jointly with the Department of Bioengineering

DEI also participates in the coordination of the following program:

#### **Erasmus Mundus master's program in Distributed Computing**

### PHD programs:

#### **PhD program in Information Systems and Computer Engineering (PDEI – Programa Doutoral em Engenharia Informática e de Computadores):**

(<https://fenix.tecnico.ulisboa.pt/cursos/DEIC>)

#### **Joint doctoral program in Distributed Computing between IST and Ecole Polytechnique Fédérale de Lausanne (IE-JPDC - IST/EPFL)**

#### **Erasmus Mundus Joint doctorate in Distributed Computing**

DEI also participates in the following programs:

#### **Erasmus Mundus Joint doctorate in Distributed Computing**

#### **Joint doctoral program in Distributed Computing between IST and Ecole Polytechnique Fédérale de Lausanne (IE-JPDC - IST/EPFL)**

#### **Doctorate in Bioengineering (MIT-Portugal Program)**

(<http://www.mitportugal.org/bioengineering-systems/>)

#### **Doctoral program in the Physics and Mathematics of Information:**

(<http://www.dp-pmi.org/>)

#### **Doctoral FCT program “Robotics, Brain and Cognition” with EPFL:**

(<http://rbcog.isr.ist.utl.pt/index.htm>)

### **Networked Interactive Cyber-Physical Systems (NETSyS),**

Institute for Systems and Robotics - Lisbon (ISR Lisboa/IST/UTL)

In addition to the academic education above, DEI also offers professional training:

### **Advanced Formation Diploma in Information Systems (POSI-Pós-Graduação em Sistemas de Informação)**

<https://fenix.tecnico.ulisboa.pt/cursos/posi>

### **Software and Information Systems Engineering (SISE-Software e Engenharia de Sistemas de Informação):**

<https://fenix.tecnico.ulisboa.pt/cursos/sise>

The Department of Computer Science and Engineering participates in student exchanges through the Erasmus program as well as other exchange programs with various European and Latin American universities.

## **Program Description and Objectives**

### **Bologna Degree in Information Systems and Computer Engineering (LEIC)**

*(Coordinators: Prof. Inês Lynce (Alameda), Prof. Nuno Mamede (Taguspark))*

Computer Science and Engineering is an area with a vast impact on today's society as computers are everywhere: on our desks, in the form of tablets or mobile phones, embedded in pacemakers or insulin pumps, controlling lights or industrial systems, in automobiles or airplanes. The applications of this area range from organizations and their management to telecommunications, banking, insurance, health, education, justice, defense and all the way through to culture and entertainment.

LEIC is offered at both the Alameda and Taguspark campuses with identical curriculums, following the main recommendations of international professional associations such as ACM and IEEE.

The main objective of the LEIC is to provide students with a solid background in the field of computer science and engineering through a well-structured curriculum based on techniques and best practices promoted internationally.

Students have been improving their marks every year. The 2013 changes on the curriculum have been effective. Noteworthy is the performance of students admitted in September 2015 in its 1st semester: the goal of reaching 80% of approvals was exceeded.

### **Bologna Degree in Telecommunications and Informatics Engineering (LETI)**

*(Coordinator: Prof. Rui Valadas)*

The Bachelor's degree in Telecommunications and Informatics Engineering aims at providing the scientific and technological fundamentals in the area of information technologies and communications networking. It is an answer to the increased demand of professionals capable of dealing with the different aspects of Internet Engineering.

The graduates of LETI are provided with a solid basis in a broad range of areas, including Informatics, Computers, Electronics, Security, Networks, and Telecommunications, thanks to innovative teaching methods and to the interaction with the surrounding technological environment, leveraged by their immersion in the environment of Taguspark, the largest Portuguese Science and Technology Park.

Upon completion of their degree, LETI students have direct access to the Bologna Master's degree in Telecommunications and Informatics Engineering (METI). Alternatively, LETI graduates can continue their studies at other national or international schools, or immediately be integrated into the specialized job market.

### **Bologna Master Degree in Information Systems and Computer Engineering - (MEIC)**

*(Coordinator: Prof. Miguel Correia)*

The experts holding an MSc degree in Computer Science and Engineering obtained at IST will be able to analyse, develop and implement complex information systems, in distributed and heterogeneous environments, in permanent technological change, which characterize the current information-based society.

Through the training acquired in this program, students will also be able to confidently develop their activity in the most areas of computer science and engineering, ranging from the conception of information systems for all types of organizations to the implementation of complex distributed systems based on internet technologies.

The MSc degree in Computer Science and Engineering accepts not only applicants with a bachelor's degree in Informatics from IST, but also students with bachelor's degrees obtained in other higher education institutions who are interested in complementing their studies at IST.

MEIC offers 15 attractive specializations both for the students and the market, also serving as a strong basis for students aiming to engage in doctoral programs.

**Bologna Master Degree in Telecommunications and Informatics Engineering (METI)**  
(Coordinator: Prof. Paulo Ferreira)

The master's program in Telecommunications and Informatics (previously called master's in Communications Networks Engineering, MERC) combines telecommunications and computer science engineering. In addition to a solid theoretical approach, the experimental component is of fundamental relevance, in line with the long and well-established tradition at IST of emphasising "learning by doing".

The master's program in Telecommunications and Informatics (METI) is aimed at graduating professionals in the area of information and communication technologies, who should be able to effectively address the new challenges that emerge from the convergence of information technologies and telecommunications. The holders of a METI will have fundamental knowledge in these two engineering fields thanks to the use of innovative teaching methods and to the interaction with the surrounding technological milieu, promoted by Taguspark, the largest Portuguese science and technology park. Therefore, METI engineers are particularly skilled to deal with complex (fixed or mobile) communications networks in the context of communications infrastructures, service development and/or applications.

The area of telecommunications and informatics provides students with a large number of job opportunities. Thus, 100% of METI students find a job adequate to their skills as soon as they complete the degree.

**Bologna Master Degree in Information and Enterprise Systems (MISE)**  
(Coordinator: Prof. Miguel Mira da Silva)

The online master's degree in Information and Enterprise Systems is offered jointly by Instituto Superior Técnico and Universidade Aberta. The 1st edition (hosted by UAb) was launched in 2013 with 60 *numerus clausus*, and last year for the 3rd edition (hosted by IST) we received 100 applications.

Although most studies confirm that students enrolled in online master degrees have a lower success rate and take twice as long to finish the degree, seven students already submitted their theses less than three years after the 1st edition started. We expect to double the number of theses to be submitted next year by students from the 2nd edition. And currently we have 45 students actively enrolled in the 3rd edition.

The main activities as coordinator have been to monitor the students, courses, and lecturers, detecting and solving issues and problems, and overall making sure that nobody is distracted from the teaching and learning activities. We also organize meetings with the MISE Scientific Council and other stakeholders, as well as online events (recorded in video) and social dinners with the students.

Every year in July we also organize a five days meeting in Montijo (first two years) or Setúbal (this year) attended by most students. The main goal of this meeting is to find and close topics for the theses, although we also have many social activities, guest speakers (from IT companies, IT customers and IT recruiters) and presentations by lecturers and students. This year we will invite some students to present their master theses.

After the week in July, we intend to repeat the huge success from last year and recruit again 100 candidates to the 60 slots available for the 4rd edition starting in September.

**Master's Degree in Biomedical Engineering**  
(Representative from DEI: Prof. Mário Gaspar da Silva)

The participation of the Department of Computer Science and Engineering in the master's in Biomedical Informatics was recently increased, with the new re-organization of this degree starting in the 2013/2014 academic year. The new specialisation in Clinical Engineering, jointly offered with the Department of Engineering Management, is gaining traction and has now one of the highest number enrolled students. The specialization curriculum includes two courses from the Department: Information Systems and Databases, previously offered as an elective course to 2nd cycle degrees, and the Health Informatics course, jointly offered to Computer Science and Engineering (MEIC) and Telecommunications and Computer Science (METI). Both courses are mandatory in the Clinical Engineering specialization. The results of quality assessment through student questionnaires (QUC) show that both courses were perceived very favourably by the students.

Since information technology has a mounting prevalence in biomedical engineering, it is expected that, over time, the students will have a rising interest in other relevant optional courses offered by the Department of Computer Science and Engineering.

### **Erasmus Mundus Master's Program in Distributed Computing**

*(Coordinators at IST: Prof. Luís Rodrigues and Prof. Luís Veiga)*

The European Master's in Distributed Computing is an international master's program sponsored by the EU under the Erasmus Mundus program. The program is run by a consortia that includes KTH/Sweden (the coordinator), IST and UPC/Spain. Half of the students do the first two semesters of the program at IST and another half do the first two semesters at UPC. Then, all students do the third semester at KTH. Finally, students do their MSc thesis in one of the three institutions. At IST, the program is structured as part of MEIC. The first group of students enrolled in 2010-2011 and the last group enrolled in 2014-2015. Currently there are no plans to continue the program after 2016. On average, the program brought seven students per year to IST, for a total of 34 international students during the lifetime of the program. Half of these students did (or will do) their MSc theses under the supervision of IST professors.

### **PhD program in Information Systems and Computer Engineering (PDEI)**

*(Coordinator: Prof. Ana Paiva)*

The PhD Program in Computer Science and Engineering (PDEI) aims at deepening the knowledge of graduates in various areas of Computer Science and Engineering, including computer architectures and operating systems, artificial intelligence, computer graphics and multimedia, information systems, software engineering and programming methodologies.

The curriculum is composed by a curricular component and a research component. During their first year, the candidates must enroll in five thematic courses (the first of which provides an introduction to research); the thematic courses aim at complementing the background of the candidates in topics relevant to their research plan. Along this first year, candidates should also work on a detailed thesis proposal, to be defended at the end of that year. From the second year onwards, students will engage in research activities that can be carried out in collaboration with any research group or hosted in a business environment, within the country or abroad, in order to enhance the work's internationalization.

Graduates from this program are highly qualified and able to work autonomously, conduct research, develop new products and create start-ups, in either academic or business environments. To this end, during the program, the candidates will have the opportunity to:

- Contribute with a significant body of work of original research to extending the frontiers of knowledge, some of which will merit publication in peer-reviewed conferences or journals;
- Improve the ability to understand in a systematic way a given scientific field of study;
- Obtain skills, abilities and research methods associated with a scientific field;
- Train the ability to design, deploy, adapt and implement a significant body of research to high standards of both quality and academic integrity;
- Train the ability to critically analyze, evaluate and synthesize complex new ideas;
- Learn to communicate with their peers, the academic community and society at large on the topics they specialized in;

During the first year, the candidates must enroll in five thematic courses (the first of which provides an introduction to research); the thematic courses aim at complementing the background of the candidates in topics relevant to their research plan. During the first year, the candidates should also work on a detailed thesis proposal, to be defended at the end of that year. In the following two years the candidates are expected to conduct research work that will culminate with the writing and public defense of their PhD theses.

The candidates will be advised by faculty from the DEI at IST and, depending on their topic of study, by other professors with complementary expertise from other IST departments or universities. Most professors are integrated in research laboratories, such as INESC-ID that provide the facilities required for the candidate to pursue his or her research plan, as well as exciting opportunities for the candidate to be integrated in national and international research projects. As part of their study plan, candidates are encouraged to spend some periods abroad in other universities, research labs or companies. Candidates interested in using their research outcomes to create start-ups will be supported by the IST and the associated research labs in this endeavour. The PhD program in Computer Science and Engineering is an umbrella for several international partnerships and, depending on their topic of study, students may enroll in dual degrees with foreign universities including CMU (USA), EPFL (Switzerland), KTH (Sweden), UCL (Belgium), University of Lyon (France), UPC (Spain), and University of Rome (Italy).

Alumni of the PhD program in Computer Science and Engineering are placed in universities, research labs, start-ups and established companies all over the world such as: Amazon, Calgary University, CRP Henri Tudor, DefineScope, Deloitte Portugal, Fujitsu Laboratories of Europe Limited, Google, ISCTE, ISEL, Kayak Berlin, Maksen, Microsoft Portugal, Microsoft Research Cambridge, OpenSoft, Oxford University, Sapo, Social Robotics Labs of Yale University, TU Delft, Unbabel, Universidade Aberta, Universidade do Algarve, Universidade de Lisboa, Universidade Nova de Lisboa, Virginia Tech, among others.

**Erasmus Mundus Joint Doctorate in Distributed Computing**

*(Coordinators at IST: Prof. Luís Rodrigues and Prof. Luís Veiga)*

The Erasmus Mundus Joint Doctorate in Distributed Computing is an international PhD program sponsored by the EU under the Erasmus Mundus program. The program is run by a consortia that includes UPC/Spain (the coordinator), KTH/Sweden, UCL/Belgium and IST. The students have a mobility plan that includes at least two institutions from the consortia. At IST, the program is structured as part of PDEI. The first group of students enrolled in 2012-2013. Up to now, there have been 12 PhD students that have selected IST as part of their mobility plans (either as first institution or second institution).

**IE-JPDC - IST/EPFL Joint Doctoral Program in Distributed Computing**

*(Coordinators at IST: Prof. Miguel Correia, Prof. Luís Rodrigues and Prof. Luís Veiga)*

The Department responded to the call for international PhD programs by FCT (Fundação para a Ciência e a Tecnologia) and a proposal for an international PhD program in Distributed Computing in cooperation with EPFL has been approved.

**Advanced Formation Diploma in Information Systems (POSI)**

*(Coordinator: Prof. José Tribolet)*

POSI-E3, IST's postgraduate program in Enterprise Information Systems and Enterprise Engineering, primarily aims to develop new competence in organizations' higher executives to deal with complex problems and decisions inherent to the management and operation of organizations in this second decade of XXI century.

The tremendous variability in the external environment and internal operation of organizations requires dynamic alignment between enterprise information systems and business processes, whose management and control involves new theoretical knowledge, new methods and new action techniques built on solid systems engineering perspectives and, consequently, the emergence of a new engineering area, currently designated as enterprise engineering.

Besides maintaining, at the heart of its concerns, the focus on enterprise information systems and their alignment with business processes, the POSI-E3 course focuses the learning of its students on the emerging areas of design, governance, control and dynamic adaptation of enterprise transformations, and on transactional responsibilities of and within organizations.

**Software and Information Systems Engineering (SISE)**

*(Coordinators: Prof. José Tribolet and Prof. Miguel Mira da Silva)*

The postgraduate program in Software and Information Systems Engineering (SISE) was designed to prepare top Ms. Sc. engineering graduates, in any field except Computer Science and Engineering, for careers requiring technical capabilities in software and information systems immediately after the program completion.

Técnico offers two programs per year, with up to 40 students per course. The first four iterations, offered in a regime intensive format, were fully sponsored by a top international consulting company.

The first, in the first semester of 2015/16, was a huge success, with the 40 enrolled students who completed successfully the program 6 months later. These first 40 graduates have all accepted a job in the sponsoring consulting company, and are now working in the field, in Portugal and abroad.

The second edition, in the second semester of 2015/16 admitted 35 students with 34 having completed successfully the 6 month program, also later joining the sponsoring consulting company.

The third edition, running during the first semester of 2016/17 has admitted 35 students.

**Bologna Degree in Information Systems and Computer Engineering (LEIC)**  
*Coordinator: Prof. Inês Lynce (Alameda)*

I have the honour and pleasure of being the coordinator of LEIC-A where I was formerly a student in one of its first editions. LEIC is definitely a landmark in the Portuguese education system, providing the most qualified computer engineers nationwide and worldwide. On completion of the course students become excellent programmers, being able to analyse a problem and provide the most appropriate solution.

**Bologna Degree in Information Systems and Computer Engineering (LEIC)**  
*Coordinator: Prof. Nuno Mamede (Tagus)*

LEIC in Taguspark combines the IST quality with the campus outstanding facilities, promoting a healthy comradeship between students and a close relationship with teachers. Another important advantage is the interaction with the surrounding technological milieu offered by Taguspark, the largest science and Technology Park in Portugal. Those choosing to study Computer Science in Taguspark will never regret their decision and will always remember the warm welcome they got from all the staff and fellow students.

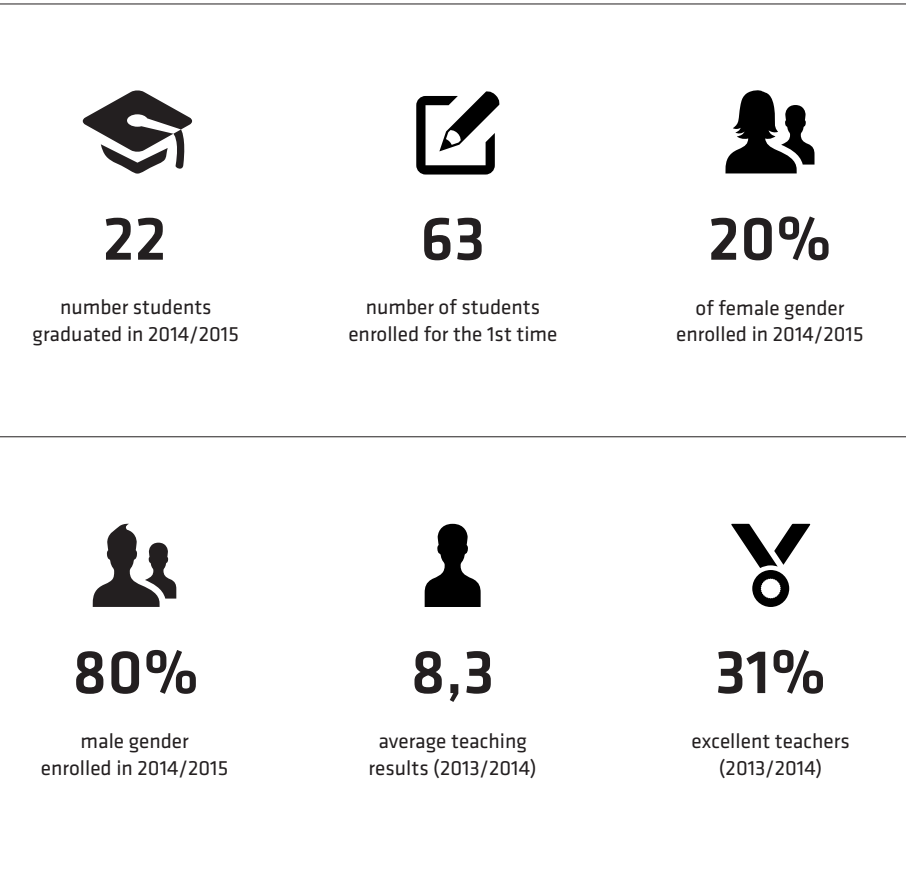

**Bologna Degree in Telecommunications and Informatics Engineering (LETI)**  
*Coordinator: Prof. Rui Valadas*

LETI provides solid and broad skills in all areas related to Internet Engineering, from the network infrastructure that supports the Internet to its distributed applications and services. LETI engineers are highly valued worldwide. Former students are all employed and enjoying their work, some in companies like Google, Facebook, and Amazon, and the degree gave rise to many technological startups. The area of LETI will keep growing for many years, and will keep providing a green field for creative minds that want to contribute to the design of the future Internet. Come and join us!

**Bologna Master’s Degree in Telecommunications and Informatics Engineering (METI)**

*Coordinator: Prof. Paulo Ferreira*

The Masters in Telecommunications and Informatics (METI) is aimed at graduating professionals in the area of Information and Communication Technologies, able to effectively address the challenges emerging from the convergence of Information Technologies and Telecommunications. These skills are widely recognized by the high employability of METI engineers and the number and quality of startups created.

**Bologna Master Degree in Information Systems and Computer Engineering (MEIC)**  
*Coordinator: Prof. Miguel Correia*

September 2015 marked the beginning of a renewed MEIC! After a 2-year period of preparation, the two previous programs – MEIC-A and MEIC-T – reappeared as a single program, with greater flexibility for the students, and new and exciting specialization domains in areas such as cyber-security, big data, and bioinformatics. With 100% employment and entry salaries above 2000 euros, MEIC is an excellent option for those interested in Computer Science and Engineering.

**Bologna Master’s Degree in Information and Enterprise Systems (MISE)**

*Coordinator: Prof. Miguel Mira da Silva*

The 1st edition of the online master's degree in Information and Enterprise Systems (MISE) was launched in 2013. Although students in online degrees usually take twice as much time to graduate and have higher dropout rates, 8 students have already submitted their master thesis. In 2015 we received 100 applications and accepted 60 students, and now 40 students have already finished the first academic year.

**PhD program in Information Systems and Computer Engineering (PDEI)**

*Coordinator: Prof. Ana Paiva*

The PhD Program in Computer Science and Engineering (PDEI) complements the basic training in Computer Science and Systems and opens doors to innovation and creativity in computer science. It is a pleasure to be coordinator of this program and see young graduates start their PhD program and after four years become recognized worldwide as first class researchers or entrepreneurs.

**Erasmus Mundus Master’s Program in Distributed Computing**

*Coordinators at IST: Prof. Luís Rodrigues and Prof. Luís Veiga*

The EMDC is the result of a cooperation among KTH in Sweden, IST, and UPC in Spain. The program, that ran from 2010 to 2016, offered a two-year MSc degree providing a solid foundation for understanding, designing, implementing, and managing scalable and reliable distributed systems. The program attracted to IST 35 international students, from 19 different countries.

**Erasmus Mundus Joint Doctorate in Distributed Computing**

*Coordinators at IST: Prof. Luís Rodrigues and Prof. Luís Veiga*

The EMJD-DC is an international PhD programme offered by UPC (Spain), UCL (Belgium), IST, and KTH (Sweden). Students carry out their research work covering the exciting field of Distributed Systems in two partner universities and regularly participate in joint training schools cover both scientific topics and transferable skills. The program attracted to IST 15 international PhD students, from 13 different countries.

## 5. Research Activities

### Scientific Areas

The Department of Computer Science and Engineering has five scientific areas in which the professors develop their scientific competences. The (BSc, MSc, PhD) programs offered by DEI also involve the same five scientific areas:

### Architecture and Operating Systems

*(Scientific Coordination: Prof. Luís Rodrigues)*

DEI's scientific area of Architecture and Operating Systems (ASO – Arquiteturas e Sistemas Operativos) focuses its research and teaching activity on the infra-structural aspects of computing systems, i.e. all domains between hardware architectures and the application levels of computer science.

The area has circa 20 faculty members, whose work addresses the following topics: hardware architectures, parallel processing, embedded systems, architectural support for multimedia and security, operating systems, computer networks, computer security, fault-tolerance, distributed systems, mobile computing, cloud computing, middleware, and enterprise integration. The ASO area is present at both IST campuses, Alameda and Taguspark, as well as at INESC-ID Lisboa.

### Computer Graphics and Multimedia

*(Scientific Coordination: Prof. Joaquim Jorge)*

The motto of the scientific area of Computer Graphics and Multimedia (CGM – Computação Gráfica e Multimédia) is “Putting People First”. Professors in this area have two main research interests: Visualization and Interaction. The former studies Advanced Computer Graphics Techniques, Animation, Scientific visualization and Information Visualization. The latter researches human-computer interaction with an emphasis on user-centred design and accessibility. The courses offered in the area reflect these interests. At the undergraduate level, we offer two introductory courses: Interactive Computer Graphics and Human-Computer Interaction. At the MSc level, the area offers advanced courses on more specific subjects, including a specialization in Games and Visualization and Interaction, featuring Courses on Advanced Graphical Visualization, Computer Animation, Visual Computing and Multimedia Content Production.

### Artificial Intelligence

*(Scientific Coordination: Prof. João Pavão Martins)*

The field of Artificial Intelligence (IA – Inteligência Artificial) aims at creating algorithms and systems that exhibit intelligent behaviour. The Scientific area of Artificial Intelligence of DEI integrates a set of professors teaching and researching most of the main topics in this area. There are two undergraduate courses, addressing Introduction to Artificial Intelligence and Logic and Reasoning; at the Master's level DEI offers courses in Natural Language, Search and Planning, Decision-Support Systems, Autonomous Agents and Multi-Agent Systems, Learning, and Knowledge Representation and Reasoning. Research interests of DEI's faculty include autonomous agents and multi-agent systems, machine learning, quantum artificial intelligence, natural language processing, search, knowledge representation and reasoning, and intelligent robotics.

### Programming Methodology and Technology

*(Scientific Coordination: Prof. Ana Teresa Freitas)*

The Scientific area of Programming Methodology and Technology (MTP – Metodologia e Tecnologia de Programação) at DEI encompasses research and teaching in different topics of computer science and engineering, including algorithms, computational complexity, software engineering, and programming languages. Specific research topics include bioinformatics and computational biology, software verification and validation, parallel and concurrent programming, constraint programming, social software, security and natural language processing, amongst others.

Information Systems

(Scientific Coordination: Prof. Mário Gaspar da Silva)

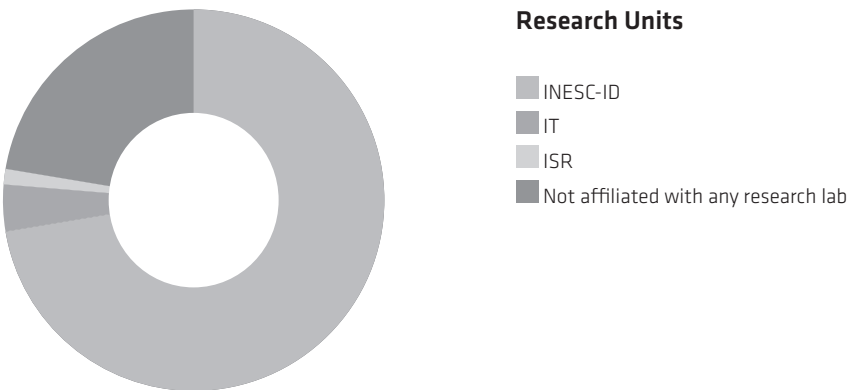

Information Systems (SI – Sistemas de Informação) at DEI has two main scientific and pedagogical objectives: (i) teaching/researching the fundamentals for dealing with companies as organisations, considered as complex systems encompassing information systems; and (ii) teaching/researching the fundamentals for creating and operating computer systems where the complexity of the information and processes is high, either due to the amount of data to process and interpret, or the size of the organisations and communities who use them. To achieve such goals, the development of research and innovation activities in this domain requires specialised practice and expertise in information systems engineering

Research and Techonology Transference and Development

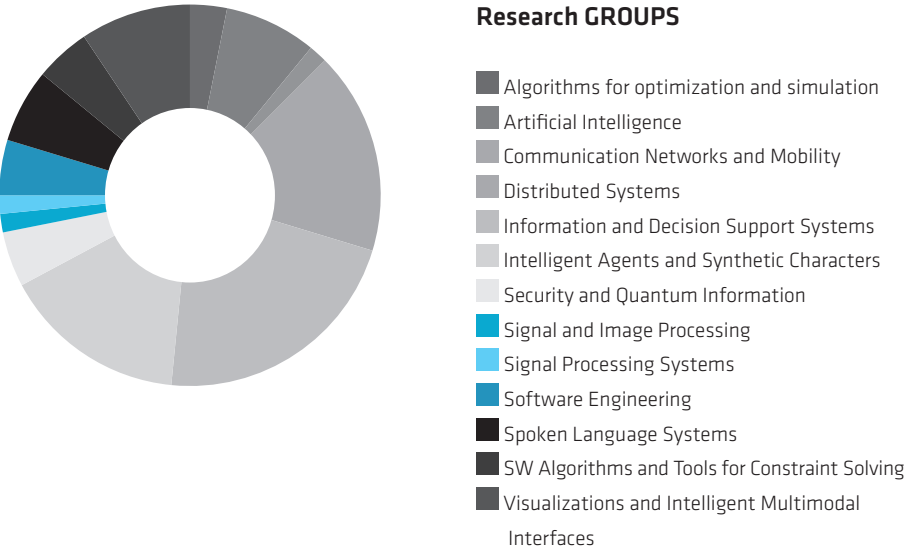

A large fraction of the DEI faculty is actively involved in research and is affiliated with a research laboratory partially funded by the “Fundação para a Ciência e a Tecnologia” (FCT), the national funding agency for science, technology and innovation:

- Laboratories of INESC-ID ([www.inesc-id.pt](http://www.inesc-id.pt))
- Laboratories of Instituto de Telecomunicações (IT) ([www.it.pt](http://www.it.pt))
- Laboratories of Instituto de Sistemas e Robótica (ISR) ([www.isr.tecnico.ulisboa.pt](http://www.isr.tecnico.ulisboa.pt))

The distribution of faculty among the several research units associated with IST is the following:

Furthermore, faculty members working in a given research unit are organized in research groups that cover specific areas. The distribution of the faculty members among research groups is as follows:

## 6. Seminar and Lectures

We thank all the speakers for the generosity of their time and for their challenging and exciting presentations.

### INESC-ID Seminar Series

#### January 8, 2015

Reading News with Maps by Exploiting Spatial Synonyms  
*Hanan Samet (University of Maryland)*

#### February 12, 2015

Collaborative Mobile Charging and Coverage in Wireless Sensor Networks  
*Jie Wu (Temple University)*

#### February 20, 2015

Non-cooperative and Deceptive Dialogue  
*David Traum (ICT- University of Southern California, USC)*

#### March 4, 2015

Rethinking reverse converter design: From algorithms to hardware components  
*Amir Sabbagh Molahosseini (Islamic Azad University)*

#### March 13, 2015

Lasp: a language for eventually consistent distributed programming with CRDTs  
*Peter Van Roy (Université catholique de Louvain)*  
*Christopher Meiklejohn (Basho Technologies)*

#### March 27, 2015

The University of the Future: Taking Knowledge Out of Campus, A Personal Tale

*Nivio Ziviani (Universidade Federal de Minas Gerais)*

#### April 1, 2015

Computing in Space with OpenSPL  
*Georgi Gaydadjiev (Chalmers University)*

#### May 27, 2015

Hardware Security: Challenges, Solutions and Opportunities  
*Chip Hong Chang (Nanyang Technological University)*

#### June 3, 2015

Trends in Software Automatic Tests  
*Speaker from Wintrust*

#### June 4, 2015

Optimized Algorithms and Dedicated Hardware for Video Coding  
*Marcelo Porto (Universidade Federal de Pelotas - UFPel, Brasil)*  
*Luciano Agostini (Universidade Federal de Pelotas - UFPel, Brasil)*

#### July 20, 2015

Temporal Information Retrieval – Understanding Time Sensitive Queries  
*Ricardo Campos (Instituto Politécnico de Tomar)*

#### July 23, 2015

Lattice-based crypto: parallelization of sieving algorithms on multicore CPUs  
*Artur Mariano (Universität Darmstadt)*

**September 11, 2015**

Predictive and Scalable  
MacroMolecular Modeling  
*Chandrajit Bajaj (University of Texas at Austin)*

**November 5, 2015**

Ramon Llull: From the Ars  
Magna to Agreement Computing  
*Carles Sierra (IIIA-CSIC)*

**November 23, 2015**

Operation and Design of VHF Self-  
Oscillating DC-DC Converter with  
Integrated Transformer  
*Igor M. Filanovsky (University of Alberta)*

**December 3, 2015**

Advanced Brain Imaging Techniques  
Symposium (under the research project  
Project HiFI - MRI on Advanced Brain  
Imaging Techniques)  
Lawrence Wald (Massachusetts General  
Hospital, A. Martinos Center, Harvard  
Medical School, Harvard-MIT HST)  
Noam Shemesh (Champalimaud  
Foundation)  
*Patrícia Figueiredo (Institute for  
Systems and Robotics)*  
*Marta Bianciardi (Massachusetts General  
Hospital, A. Martinos Center)*  
*Tiago Maia (School of Medicine,  
Universidade de Lisboa)*  
*Mário Figueiredo (Telecommunications  
Institute)*

**December 22, 2015**

The promise and peril of  
anthropomorphizing agents  
*Jonathan Gratch (ICT- University of  
Southern California, USC))*

**January 11, 2016**

Gamification in your Classroom:  
Avoiding stale water in fancy juice boxes  
*Lennart Nacke (University of Waterloo)*

**January 29, 2016**

NetKAT: A Formal System For The  
Verification Of Networks  
*Alexandra Silva (University College of  
London)*

**February 26, 2016**

Chain-of-trust packet marking  
*Otávio Carpinteiro (Universidade Federal  
de Itajubá, Brasil)*

**March 10, 2016**

System and Toolchain Support for  
Reliable Intermittent Computing  
*Brandon Lucia (Carnegie Mellon  
University)*

**March 17, 2016**

Harnessing Virtualization Technology for  
Intrusion Detection and Analysis  
*Hans P. Reiser (University of Passau)*

**March 31, 2016**

Reconfigurable Computing:  
Architectures, Compilers, Applications  
*Markus Weinhardt (University of  
Karlsruhe)*

**March 31, 2016**

Distributed Estimation and Prediction  
of Radiation for Solar Energy Plants  
(CODISOL)  
*Francisco R. Rubio (University of Sevilla)*

**April 27, 2016**

Generating Textual Summaries at  
Different Target Reading Levels:  
Summarizing Line Graphs for Visually  
Impaired Users  
*Kathy McCoy (University of Delaware)*

**April 28, 2016**

Middleboxes as a cloud service  
*Justine Sherry (UC Berkeley)*

**May 3, 2016**

Audio research for movies  
*Nuno Fonseca (INESC-ID)*

*May 18, 2016*

Maximizing Parallelism without  
Exploding Deadlines in a Mixed Criticality  
Embedded System  
*Prof. Gilles Muller (LIP6)*

**May 27, 2016**

Taking AR to Task: Explaining Where  
and How in the Real World  
*Steve Feiner (Columbia University)*

**June 17, 2016**

Estocada: Flexible Hybrid Stores  
*Ioana Manolescu-Goujot (INRIA Saclay)*

**June 22, 2016**

Design and Development of  
Microcontroller ZR16 - A Successful Case  
*João Baptista Martins (Universidade  
Federal de Santa Maria)*

**June 22, 2016**

Some recent work on Convolutional  
Neural Networks (CNNs) for text  
classification  
*Byron Wallace (University of Texas at  
Austin - UTA)*

**June 22, 2016**

In search of the role's footprints in  
client-therapist dialogues: Analyzing  
speech prosody from a sociolinguistic  
perspective  
*Silber-Varod (The Open University of  
Israel)*

**June 27, 2016**

Efficient Power and Wideband Data  
Transmission in Near Field  
*Maysam Ghovanloo (Georgia Tech)*

**June 28, 2016**

Optimal Computation of Avoided Words  
*Solon Pissis (Kings College London)*

**June 28, 2016**

Popping Superbubbles and identifying  
clumps  
*Ritu Kundu (Kings College London)*

**June 29, 2016**

Haplotype Assembly  
*Nadia Pisanti (University of Pisa)*

**July 1, 2016**

The Unicage method for (big) data  
processing and MONO-gramming for IoT  
- from Japan to the World.  
Hiroyuki Ohno (Kanazawa University,  
Japan)

**INESC-ID Distinguished Lecture Series**

**January 22, 2015**

Privacy-Preserving Event Stream  
Processing in the Cloud  
*Pascal Felber (Université de Neuchâtel)*

**June 4, 2015**

More is different: how complex  
networks lead to new emergent social  
behavior  
*Jorge M. Pacheco (Universidade do Minho)*

**September 28, 2015**

Next-generation data-parallel dataflow  
systems  
*Frank McSherry (ETH Zurich)*

**December 9, 2015**

Evolving Critical Systems  
*Mike Hinchey (Lero - the Irish Software Research Centre)*

**April 6, 2016**

Tardis: Time Traveling Coherence  
Algorithm for Distributed Shared  
Memory

**June 27, 2016**

The Five Tribes of Machine Learning, and  
What You Can Take from Each  
*Pedro Domingos (University of Washington)*

**CIO@IST**

CIO@IST is an initiative for promoting the contact of the students and faculty with professional usage of IT in representative companies in Portugal.

The objective is to have the Chief Information Officers (CIO) of the largest companies explaining the challenge to their companies in terms of IT and trying simultaneously to highlight the challenges for IT in different industry sectors. The initiative is coordinated with the Department courses addressing the social and professional issues of the IT profession.

The initiative consists of invited speakers that are recorded and a site was developed to register the full slide presentations, videos of the talk and Q&A.

The initiative consists in invited talks that are recorded and a site was developed to register the full slide presentations, videos of the talk and Q&A.

Each speaker is asked to provide his or her vision on the following topics:

- The role and relevance of information technologies in the business area and in the invited company;
- The architecture of the company's IT systems;
- Current Enterprise Architecture (as is);;
- Medium/short term transformation plan;
- Future challenges;
- Perspectives on the use/impact of information technologies in the business sector in the long term (10 years);
- Main innovative challenges: business, technological, social;
- Challenges and recommendations for computer science and engineering curricula, given current and future challenges.

So far there have been four presentations with from CIOs of Banco BPI (Banking), Galp (Oil & Gas), REN (Energy) and Fidelidade (Insurance).

More information at: <http://cio.tecnico.ulisboa.pt>

## 7. Doctoral Theses

In 2015 and 2016, 24 doctoral theses were successfully defended in the following 3rd cycle (Ph.D.) courses offered by DEI:

- Ph.D. Program in Computer Science and Engineering (DEIC). More information at <https://fenix.tecnico.ulisboa.pt/cursos/deic>
- Dual Degree Ph.D. Program in Computer Science, in a collaboration between Instituto Superior Técnico (IST) and the School of Computer Science at Carnegie Mellon University (CMU). More information at <http://ai.tecnico.ulisboa.pt/en/programas-de-estudo/programas-duplos-graus/cmu-portugal/>
- Erasmus Mundus Joint Doctorate in Distributed Computing. More information at <http://emjd-dc.eu/>

We extend our congratulations to all the students and wish them the best in their future careers. Many of these theses were supervised or co-supervised by DEI members. We also extend our most sincere appreciation to all the colleagues from other departments who participated in the supervision of many of these theses. In the listings below, theses are ordered by student surname.

### Ph.D. Program in Computer Science and Engineering (DEIC)

- Student Name:** Ivo Filipe Silva Daniel Anjo  
**Title:** Speculative Parallelization of Object-Oriented Applications  
**Supervisor:** Professor João Manuel Pinheiro Cachopo
- Student Name:** Gonçalo José Branquinho Antunes  
**Title:** Analysis of Enterprise Architecture Models: An Application of Ontologies to the Enterprise Architecture Domain  
**Supervisor:** Professor José Luís Brinquete Borbinha  
**Co-Supervisor:** Professor Artur Miguel Pereira Alves Caetano
- Student Name:** Gabriel José Faustino Fonseca Barata  
**Title:** Differentiating Students in Gamified College Education  
**Supervisor:** Professor Daniel Jorge Viegas Gonçalves
- Student Name:** Fernando Luís Todo-Bom Ferreira da Costa  
**Title:** SCOLARS: SCalable LARge Scale Volunteer Computing for Map-Reduce  
**Supervisor:** Professor Paulo Jorge Pires Ferreira

**Student Name:** Vasco Alexandre da Silva Costa  
**Title:** Grid-Based Acceleration Techniques for Real-Time Ray Tracing  
**Supervisor:** Professor João António Madeiras Pereira  
**Co-Supervisor:** Professor Joaquim Armando Pires Jorge

**Student Name:** Maria Isabel Catarino Couceiro  
**Title:** Autonomic Replicated Software Transactional Memory  
**Supervisor:** Professor Luís Eduardo Teixeira Rodrigues  
**Co-Supervisor:** Professor Paolo Romano

**Student Name:** Diego Didona  
**Title:** Gray Box Performance Modeling of In-Memory Distributed Transactional Platforms  
**Supervisor:** Professor Paolo Romano

**Student Name:** Sandra Pereira Gama  
**Title:** Visualizing Personal Trends in Social Personal Information  
**Supervisor:** Professor Daniel Jorge Viegas Gonçalves

**Student Name:** João Pedro Vieira Guerreiro  
**Title:** Enhancing Blind People's Information Scanning with Concurrent Speech  
**Supervisor:** Professor Daniel Jorge Viegas Gonçalves

**Student Name:** Rui Miguel Carrasqueiro Henriques  
**Title:** Learning from High-Dimensional Data using Local Descriptive Models  
**Supervisor:** Professor Sara Alexandra Cordeiro Madeira

**Student Name:** Samuel Francisco Mascarenhas  
**Title:** Creating Culturally-Adaptive Agents  
**Supervisor:** Professor Ana Maria Severino de Almeida e Paiva  
**Co-Supervisor:** Professor Rui Filipe Fernandes Prada

**Student Name:** Diogo Miguel da Costa e Castro Mónica de Oliveira  
**Title:** Defeating malicious attacks. A contribution to safe network operations  
**Supervisor:** Professor Carlos Nuno da Cruz Ribeiro

**Student Name:** João Gonçalves Paiva  
**Title:** Data Placement in Distributed Systems  
**Supervisor:** Professor Luís Eduardo Teixeira Rodrigues

**Student Name:** Gonçalo Duarte Garcia Pereira  
**Title:** Bases of Social Power for Socially Intelligent Agents  
**Supervisor:** Professor Rui Filipe Fernandes Prada  
**Co-Supervisor:** Professor Pedro Alexandre Simões dos Santos

**Student Name:** Luís Gabriel Ganchinho de Pina  
**Title:** Practical Dynamic Software Updating  
**Supervisor:** Professor Luís Manuel Antunes Veiga  
**Co-Supervisor:** Professor Michael William Hicks

**Student Name:** João Pedro Marques Pombinho  
**Title:** Value-oriented Enterprise Transformation: Design and Engineering of Value Networks  
**Supervisor:** Professor José Manuel Nunes Salvador Tribolet  
**Co-Supervisor:** Professor David Sardinha Andrade de Aveiro

**Student Name:** Hugo Jorge Beja Rito  
**Title:** Exploring the Parallelism of Conflict-Intensive Applications  
**Supervisor:** Professor João Manuel Pinheiro Cachopo

**Student Name:** José Manuel de Campos Lages Garcia Simão  
**Title:** Economics-inspired Adaptive Resource Allocation and Scheduling for Cloud Environments  
**Supervisor:** Professor Luís Manuel Antunes Veiga

**Student Name:** Gonçalo Fernandes Simões  
**Title:** When Speed Has a Price: Fast Information Extraction Using Approximations  
**Supervisor:** Professor Helena Isabel de Jesus Galhardas  
**Co-Supervisor:** Professor Luís Gravano

**Student Name:** Luís Alexandre Duque Moreira de Sousa  
**Title:** DSL3S: Domain Specific Language for Spatial Simulation Scenarios  
**Supervisor:** Professor Alberto Manuel Rodrigues da Silva

**Dual Degree Ph.D. Program in Computer Science (IST-CMU)**

**Student Name:** Wang Ling  
**Title:** Machine Translation 4 Microblogs  
**Supervisors:** Professors Alan W Black, and Isabel Maria Martins Trancoso

## 8. Master’s Theses

**Student Name:** Luís Carlos dos Santos Marujo  
**Title:** Event-based Multi-document Summarization  
**Supervisor:** Professor João Paulo da Silva Neto  
**Co-Supervisors:** Professors Anatole Gershman, Jaime Carbonell, and David Manuel Martins de Matos

**Student Name:** João Tiago Rodrigues de Sousa Miranda  
**Title:** Combining multiple parallel streams for improved speech processing  
**Supervisors:** Professors Alan W Black, and João Paulo da Silva Neto  
**Co-Supervisor:** Professor Maria Luísa Torres Ribeiro Marques da Silva Coheur

### Erasmus Mundus Joint Doctorate in Distributed Computing (EMJD-DC)

**Student Name:** Muhammad Amin Khan  
**Title:** Managing Incentives in Community Network Clouds  
**Supervisor:** Professor Luís Eduardo Teixeira Rodrigues  
**Co-Supervisor:** Professor Felix Freitag

In 2015 and 2016, 224 master’s theses were successfully defended in the courses coordinated by DEI, 193 in the Master’s Degree (MSc) in Computer Science and Engineering (MEIC) and 31 in the Master’s Degree (MSc) in Telecommunications and Informatics Engineering (METI). We extend our congratulations to all the students and wish them the best in their future careers. Many of these theses were supervised or co-supervised by DEI members. We also extend our most sincere appreciation to all the colleagues from other departments who participated in the supervision of many of these theses.

In the listings below, theses are ordered by student surname.

### Master Degree (MSc) in Computer Science and Engineering (MEIC)

**Student Name:** Alexandre José Batista Aguiar  
**Title:** Sistema de Ficheiros com Histórico  
**Supervisor:** Professor João Coelho Garcia

**Student Name:** Artur José Brás Mayer Alkaim  
**Title:** Fast Visualization of Large Architectural Models  
**Supervisor:** Professor António Paulo Teles de Menezes Correia Leitão

**Student Name:** Ana Patrícia Ribeiro de Almeida  
**Title:** Multimodal Interaction in a Personal Life Assistant for the Elderly  
**Supervisor:** Professor Daniel Jorge Viegas Gonçalves

**Student Name:** Ricardo Jorge Ferreira Alqueidão  
**Title:** Managing Innovation in Hospitals  
**Supervisor:** Professor Miguel Leitão Bignolas Mira da Silva

**Student Name:** Gabriel Gomes Alves  
**Title:** Move With Me: Serious Game for Rehabilitation of Children with Disorders of the Upper and Lower Limbs  
**Supervisor:** Professor Ana Maria Severino de Almeida e Paiva

**Student Name:** Sérgio Miguel de Albuquerque Alves  
**Title:** Data Center Portal Software Architecture - A NOS Operations and Supervision System  
**Supervisor:** Professor António Manuel Ferreira Rito da Silva

**Student Name:** Diogo Gonalo Silva dos Anjos  
**Title:** Real-Time Integration of Building Energy Data  
**Supervisor:** Professor Paulo Jorge Fernandes Carreira

**Student Name:** Nkadi Sebastião Ant3nio  
**Title:** Suporte ao envolvimento do utilizador em processos de limpeza de dados  
**Supervisor:** Professor Helena Isabel de Jesus Galhardas

**Student Name:** Miguel Moreira de Figueiredo Os3rio de Arag3o  
**Title:** Towards an Advanced Interoperability Framework Between the Robotic Mid-  
dlewares YARP and ROS  
**Supervisors:** Professor David Manuel Martins de Matos and Professor Alexandre Jos3  
Malheiro Bernardino

**Student Name:** Guilherme de Sousa Aranha  
**Title:** Grid Computing in Organizational Environments  
**Supervisors:** Professor David Manuel Martins de Matos and Professor Nuno Filipe  
Valentim Roma

**Student Name:** Gonalo Jo3o Curado Avelar  
**Title:** GreenBrowsing  
**Supervisor:** Professor Lu3s Manuel Antunes Veiga

**Student Name:** Filipe Fernandes Azevedo  
**Title:** A Scalable Architecture for OpenFlow SDN Controllers  
**Supervisors:** Professor Fernando Henrique C3rte-Real Mira da Silva and Professor  
Lu3s Jorge Br3s Monteiro Guerra e Silva

**Student Name:** Ana Raquel Correia Bairr3o  
**Title:** A Risk Register for Digital Curation aligned with the OAIS reference model  
**Supervisor:** Professor Jos3 Lu3s Brinquete Borbinha

**Student Name:** Rafael F3rias Baltazar  
**Title:** JMLCUTE: Automated JML-Based Unit Test Case Generation  
**Supervisors:** Professor Jo3o Carlos Serrenho Dias Pereira and Professor Pedro Miguel  
dos Santos Alves Madeira Ad3o

**Student Name:** Volodymyr Balytskyy  
**Title:** The role of emotional traits in the evolutionary dynamics of Multiplayer Ulti-  
matum Game  
**Supervisors:** Professor Francisco Jo3o Duarte Cordeiro Correia dos Santos and Profes-  
sor Ana Maria Severino de Almeida e Paiva

**Student Name:** Daniel Filipe Pombo da Silva Baptista  
**Title:** Thematically-Driven Guitar Music Retrieval  
**Supervisors:** Professor David Manuel Martins de Matos and Professor Ricardo Daniel  
Santo Faro Marques Ribeiro

**Student Name:** Marta Castro Pina Nunes Baptista  
**Title:** Business Model Innovation using Lean Methodologies for Companies with Es-  
tablished Technologies  
**Supervisor:** Professor Miguel Leit3o Bignolas Mira da Silva

**Student Name:** Vanessa Alves Feliciano Baptista  
**Title:** Diz-me o que escreves dir-te-ei quem 3s - Processamento de L3ngua Natural  
aplicado 3 literatura  
**Supervisors:** Professor Maria Lu3sa Torres Ribeiro Marques da Silva Coheur and Pro-  
fessor Jo3o Paulo Baptista de Carvalho

**Student Name:** Duarte S3rgio Ramalho Barbosa  
**Title:** IST Shuttle - Booking, management and monitoring service  
**Supervisor:** Professor Teresa Maria S3 Ferreira Vaz3o Vasques

**Student Name:** Carlos Guilherme Cris3stomo Bartolomeu  
**Title:** Dynamic Adaptation of Geo-Replicated CRDTs  
**Supervisor:** Professor Lu3s Eduardo Teixeira Rodrigues

**Student Name:** M3guel Jos3 Fitas Ba3to  
**Title:** RoadAhead - enhanced vision for traffic management  
**Supervisor:** Professor Paulo Jorge Pires Ferreira

**Student Name:** M3guel Abreu Malafaia Mendes Belo  
**Title:** Automation of Secrecy Proofs for Security of Protocols  
**Supervisor:** Professor Pedro Miguel dos Santos Alves Madeira Ad3o

**Student Name:** Gessildo Fernando Bengui  
**Title:** PropertyField Manager - Sistema de Gestão de Regras de Negócio  
**Supervisor:** Professor José Luís Brinquete Borbinha

**Student Name:** Maria Leonor Ferreira da Costa Cunha Bento  
**Title:** Coverage-based validation of embedded systems  
**Supervisors:** Professor José Carlos Campos Costa and Professor José Carlos Alves Pereira Monteiro

**Student Name:** Beatriz Vila Bernardo  
**Title:** An Interactive Tangram Game For Autistic Children  
**Supervisors:** Professor Ana Maria Severino de Almeida e Paiva and Professor Francisco António Chaves Saraiva de Melo

**Student Name:** André José Faria Bico  
**Title:** OpTix versus Embree using Vertex Connection and Merging  
**Supervisors:** Professor João António Madeiras Pereira and Engineer Vasco Alexandre da Silva Costa

**Student Name:** Miguel Guerreiro Anão Borges  
**Title:** Social-Networking@Edge  
**Supervisor:** Professor Luís Manuel Antunes Veiga

**Student Name:** Tiago Miguel Marques Branco  
**Title:** Análise de padrões em Mercados Bolsistas otimizado por algoritmos genéticos utilizando SAX modificado  
**Supervisors:** Professor Rui Fuentecilla Maia Ferreira Neves and Professor Nuno Cavaco Gomes Horta

**Student Name:** Tiago José Gonçalves Brás  
**Title:** Arquitetura Informacional de Referência para o Setor da Saúde Portuguesa  
**Supervisor:** Professor André Ferreira Ferrão Couto e Vasconcelos

**Student Name:** Gonçalo Rodrigues Cadete  
**Title:** Using Enterprise Architecture for COBIT 5 Process Assessment and Process Improvement  
**Supervisor:** Professor Miguel Leitão Bignolas Mira da Silva

**Student Name:** Francisco Manuel Maya Murias de Melo Campelo  
**Title:** Aplicação móvel para visualização de uma história localizada no espaço (localized storytelling)  
**Supervisor:** Professor João Coelho Garcia

**Student Name:** Filipe Pascoal Martins Carapeto  
**Title:** Técnicas de Aproximação para a Betweenness em Redes de Grande Dimensão  
**Supervisors:** Professor Alexandre Paulo Lourenço Francisco and Professor Luís Manuel Silveira Russo

**Student Name:** Mário Augusto Rodrigues Cardoso  
**Title:** Tool for Managing IS Benefits  
**Supervisors:** Professor Miguel Leitão Bignolas Mira da Silva and Engineer João Correia Louro

**Student Name:** Tiago Martins Catarino  
**Title:** Role of the Chief Information Security Officer  
**Supervisors:** Professor André Ferreira Ferrão Couto e Vasconcelos and Professor Miguel Leitão Bignolas Mira da Silva

**Student Name:** José Miguel Castanheira Cavalheiro  
**Title:** A Multidimensional Model for Building Energy Management  
**Supervisor:** Professor Paulo Jorge Fernandes Carreira

**Student Name:** Jorge Miguel Trigo Coelho  
**Title:** Fine-Tuning HVAC Operation Through RFID and User Feedback  
**Supervisors:** Professor Paulo Jorge Fernandes Carreira and Professor Miguel Filipe Leitão Pardal

**Student Name:** Samuel Filipe Capucho Mendes Coelho  
**Title:** Smart places: A framework to develop proximity-based mobile applications  
**Supervisors:** Professor Miguel Filipe Leitão Pardal and Professor José Manuel da Costa Alves Marques

**Student Name:** Sara Maria Cordo  
**Title:** Fingerpointer - Pointing Gestures for Collaborative Robots  
**Supervisors:** Professor Alexandre José Malheiro Bernardino and Professor Mário Rui Fonseca dos Santos Gomes

**Student Name:** Filipa Isabel Nogueira Correia  
**Title:** EMYS: a social robot that plays “Sueca”  
**Supervisors:** Professor Ana Maria Severino de Almeida e Paiva and Professor Francisco António Chaves Saraiva de Melo

**Student Name:** Hugo Filipe Fonseca Correia  
**Title:** P2R: Implementation of Processing in Racket  
**Supervisor:** Professor António Paulo Teles de Menezes Correia Leitão

**Student Name:** José Miguel Pinheiro Correia  
**Title:** Syntax Deep Explorer  
**Supervisors:** Professor Nuno João Neves Mamede and Professor Jorge Manuel Evangelista Baptista

**Student Name:** Rafael Vassalo Cortês  
**Title:** CloudBox: Private, Reliable and Distributed Storage  
**Supervisors:** Professor Pedro Miguel dos Santos Alves Madeira Adão and Professor Luís Manuel Antunes Veiga

**Student Name:** Miguel Rodrigues Bento Barros da Costa  
**Title:** TrUbi - Mobile Operating System Security  
**Supervisors:** Professor Paulo Jorge Pires Ferreira and Professor Nuno Miguel Carvalho dos Santos

**Student Name:** Nuno Alexandre Pinto da Costa  
**Title:** Believable Interactions Between Synthetic Characters  
**Supervisor:** Professor Carlos António Roque Martinho

**Student Name:** Pedro Alejandro Jorges de Magalhães Costa  
**Title:** Implementing ITIL using a Workflow Tool  
**Supervisor:** Professor Miguel Leitão Bignolas Mira da Silva

**Student Name:** André Gonçalo Batista Correia da Cruz  
**Title:** An Information Systems Reference Architecture for the CRM domain  
**Supervisor:** Professor André Ferreira Ferrão Couto e Vasconcelos

**Student Name:** Auguste Antoine Cunha  
**Title:** Swarm Intelligence in Strategy Games  
**Supervisors:** Professor Pedro Alexandre Simões dos Santos and Professor Carlos António Roque Martinho

**Student Name:** Rita Peres Cruz Curado  
**Title:** Linked Product Data  
**Supervisors:** Professor Miguel Filipe Leitão Pardal and Professor José Manuel da Costa Alves Marques

**Student Name:** Cátia Andreia Gomes Dias  
**Title:** TalKit: Desenvolvimento de um sistema de diálogo para português  
**Supervisor:** Professor Maria Luísa Torres Ribeiro Marques da Silva Coheur

**Student Name:** Francisco Manuel Carvalho Dias  
**Title:** Multilingual Automated Text Anonymization  
**Supervisors:** Professor Nuno João Neves Mamede and Doctor João de Almeida Var-elas Graça

**Student Name:** João Luís Gonçalves Domingos  
**Title:** Website file download acceleration using WebRTC  
**Supervisor:** Professor Ricardo Jorge Feliciano Lopes Pereira

**Student Name:** Pedro Gonçalo Pinto Domingues  
**Title:** A Modular Software Architecture to Cope With Automation Hardware Heterogeneity  
**Supervisor:** Professor Paulo Jorge Fernandes Carreira

**Student Name:** Carlos Manuel Rodrigues Duarte  
**Title:** Audio Cover Song Identification  
**Supervisor:** Professor David Manuel Martins de Matos

**Student Name:** Nuno Miguel de Oliveira Duarte  
**Title:** On the Effectiveness of Trust Leases in Securing Mobile Applications  
**Supervisors:** Professor Paulo Jorge Pires Ferreira and Professor Nuno Miguel Carvalho dos Santos

**Student Name:** André Nicolau Fernandes  
**Title:** An Evolutionary Computing Approach to Financial Portfolio Management Based on Growth Stocks & Sector/Industry Distribution  
**Supervisors:** Professor Rui Fuentecilla Maia Ferreira Neves and Professor Nuno Cavaco Gomes Horta

**Student Name:** Rodrigo Tavares Fernandes  
**Title:** Green-Cloud: Economics-inspired Scheduling, Energy and Resource Management in Cloud Infrastructures  
**Supervisor:** Professor Luís Manuel Antunes Veiga

**Student Name:** Telma Filipa de Carvalho Fernandes  
**Title:** A software infrastructure for the CLEENEX optimizer  
**Supervisor:** Professor Helena Isabel de Jesus Galhardas

**Student Name:** Tiago José Perdigão Fernandes  
**Title:** GeoBiblio – base de dados bibliográfica georeferenciada  
**Supervisor:** Professor João Nuno de Oliveira e Silva

**Student Name:** António de Sousa Ferreira  
**Title:** Plataforma de Formulários Eletrónicos  
**Supervisors:** Professor José Luís Brinquete Borbinha and Engineer Paulo Alexandre Rodrigues dos Santos

**Student Name:** Bruno Filipe Belo Ferreira  
**Title:** Generative Design for Building Information Modeling  
**Supervisor:** Professor António Paulo Teles de Menezes Correia Leitão

**Student Name:** Guilherme Ferreira  
**Title:** An Enhanced Programming Environment for Generative Design  
**Supervisor:** Professor António Paulo Teles de Menezes Correia Leitão

**Student Name:** Jaime Rodrigues Ferreira  
**Title:** Incremental Learning of Probabilistic Models in High-Dimensional Space  
**Supervisors:** Professor David Manuel Martins de Matos and Professor Ricardo Daniel Santos Faro Marques Ribeiro

**Student Name:** Pedro Miguel Andrade Ferreira  
**Title:** Application of Scheduling Techniques to Teacher-Class Assignments  
**Supervisors:** Professor João Emílio Segurado Pavão Martins and Professor Maria Luísa Torres Ribeiro Marques da Silva Coheur

**Student Name:** Susana Cardoso Ferreira  
**Title:** Parallel XML Matching Algorithm for Publish/Subscribe Systems  
**Supervisor:** Professor João Carlos Serrenho Dias Pereira

**Student Name:** Vasco Pinto Ferreira  
**Title:** Using Textual Transcripts of Parliamentary Interventions for Profiling Portuguese Politicians  
**Supervisors:** Professor Bruno Emanuel da Graça Martins and Professor David Manuel Martins de Matos

**Student Name:** Paulo César Dias Figueiredo  
**Title:** Video Summaries for Science Talks  
**Supervisors:** Professor David Manuel Martins de Matos and Professor Ricardo Daniel Santos Faro Marques Ribeiro

**Student Name:** Ana Patrícia Fred Filipe  
**Title:** CoBelievable: the effect of Cooperation in Believability  
**Supervisors:** Professor Carlos António Roque Martinho and Professor João Miguel de Sousa de Assis Dias

**Student Name:** Jorge Miguel Saldanha Filipe  
**Title:** Where Have I Been - Visualizing Personal Geolocation Data  
**Supervisor:** Professor Daniel Jorge Viegas Gonçalves

**Title:** Raspberry Drone: Unmanned Aerial Vehicle (UAV)  
**Supervisors:** Professor Nuno Filipe Valentim Roma and Professor Ricardo Jorge Fernandes Chaves

## 9. Staff

The faculty of the Computer Science and Engineering Department has 80 professors. This includes 10 full professors, 20 associate professors and 42 assistant professors. Furthurmore, the Department also has 8 invited assistant professors.

Each faculty member belongs to one of the five scientwific areas of the Department. As a result, the number of faculty members (including invited professors) in each area is as follows: Architecture and Operative Systems (18 professors), Computer Graphics and Multimedia (11 professors), Artificial Intelligence (14 professors), Meth-odology and Technologies of Programming (19 professors) and Information Systems (18 professors).

The administrative staff at DEI includes 1 coordinator and 9 collaborators.

### Secretariats

#### Campus Alameda

Av. Rovisco Pais, 1  
1049-001 Lisboa, Portugal  
Tel: +351 218 417 784

#### Campus Taguspark

Av. Professor Cavaco Silva  
2780-990 Porto Salvo, Portugal  
Tel: +351 214 233 503

**Pedro Miguel dos Santos Alves Madeira Adão**

**PhD:** Instituto Superior Técnico, 2006

*Assistant Professor*

**Phone:** +351 214 233 260

**E-mail:** pedro.adao@tecnico.ulisboa.pt

**Webpage:** <http://web.tecnico.ulisboa.pt/pedro.adao/>

**Research Areas and Interests**

Pedro Adão is a researcher at the Security and Quantum Information Group at Instituto de Telecomunicações. His major research interests are Mathematical Foundations of Cryptography, Specification and Verification of Cryptographic Protocols, Verification of Secure Software, and “Physical” and “Day-life” Cryptography.

**Academic Info and Highlights**

Pedro Adão is the co-leader of the FCT-funded project Confident, and a member of the ICT COST Action IC1306, Cryptography for Secure Digital Interaction. He is the General Chair of IEEE Computer Security Foundations Symposium for the years of 2016 and 2017. Pedro Adão has taught the MSc course on Specification of Software and the PhD courses Computational Models in Security, and Security Engineering, and is a faculty member of the FCT-Doctoral Programme in the Physics and Mathematics of Information. He received the “Excellence in Teaching in IST” award in 2016. He currently leads the Security Team@Tecnico initiative, a team of students that participates in security-related competitions.

**Fausto Jorge Morgado Pereira de Almeida**

**PhD:** Instituto Superior Técnico, 2006

*Invited Assistant Professor*

**Phone:** +351 218 417 479

**E-mail:** fausto.almeida@tecnico.ulisboa.pt

**Webpage:** <https://fenix.tecnico.ulisboa.pt/homepage/ist13280>

**Research Areas and Interests**

Fausto Almeida is a member of the Artificial Intelligence group of DEI. Main interests on search and optimization algorithms applied to public transportation. This includes timetabling for railway companies and crew assignment for transportation companies.

**Academic Info and Highlights**

Courses lectured recently: Foundations of Programming, Logic for Programming, Search and Planning and Artificial Intelligence.

**Cláudia Martins Antunes**

**PhD:** Instituto Superior Técnico, 2005

*Assistant Professor*

**Phone:** +351 218 419 407

**E-mail:** claudia.antunes@tecnico.ulisboa.pt

**Webpage:** <http://web.tecnico.ulisboa.pt/claudia.antunes/>

**Research Areas and Interests**

Cláudia Antunes research interests are in the area of machine learning and data science, in particular temporal data mining, domain driven data mining and its semantic aspects. She leads research projects on data science, using education and healthcare as privileged fields for applying the developed methods and methodologies. She has about seventy papers published in international conferences and journals.

**Academic Info and Highlights**

Cláudia Antunes lectures courses related to machine learning and data science in undergraduate and postgraduate programs, along with foundations of programming in undergraduate programs

**João Pedro Faria Mendonça Barreto**

**PhD:** Instituto Superior Técnico, 2009

*Assistant Professor*

**Phone:** +351 213 100 292

**E-mail:** joao.barreto@tecnico.ulisboa.pt

**Webpage:** <http://www.gsd.inesc-id.pt/~jpbarreto/>

**Research Areas and Interests**

He is a member of the Distributed Systems Group, at INESC-ID. His main research interests are concurrent programming, operating systems, non-volatile memory, data deduplication, mobile computing, replication and consistency.

**Academic Info and Highlights**

Started a new H2020 Project, called “TRACE - Walking and Cycling Tracking Services”, where he coordinates the local team at INESC-ID. Successfully concluded the Spec-TM project, funded by FCT, where he was Principal Researcher. Co-chaired the Large-Scale Parallel and Distributed Computation track at INForum 2015 and 2016. Awarded for excellent pedagogical results while teaching the Operating Systems course in 2015.

**José Luis Brinquete Borbinha**

**PhD:** Instituto Superior Técnico, 2001  
*Associate Professor*  
**Phone:** +351 213 100 336  
**E-mail:** jlb@tecnico.ulisboa.pt  
**Webpage:** <http://web.tecnico.ulisboa.pt/jlb/>

**Research Areas and Interests**

José Borbinha is the coordinator of the IDSS Research Group at the INESC-ID (<http://idss.inesc-id.pt/>). His main research interests comprise conceptual analysis and modeling of systems, Enterprise Architecture, Requirements Engineering, and information management in general (including digital libraries, digital preservation, records management and scientific data management)

**Academic Info and Highlights**

José Borbinha is the local PI of the international research project E-ARK. He is the chair of the steering committees of the TPD L conference, and member of the steering committee of the iPRES conference. He has been the responsible professor of the courses Analysis and Modeling of Information Systems (graduating level), Information Systems Fundamentals (Master level), and Conceptual Modeling of Systems (Doctoral level)

**Artur Miguel Pereira Alves Caetano**

**PhD:** Instituto Superior Técnico, 2008  
*Assistant Professor*  
**Phone:** +351 919 632 749  
**E-mail:** artur.caetano@tecnico.ulisboa.pt  
**Webpage:** <https://sites.google.com/site/arturcaetano/>

**Research Areas and Interests**

Business Process Management, Enterprise Modelling, Conceptual Modelling

**Academic Info and Highlights**

I am a tenured assistant professor of Information Systems at IST and lecture on enterprise architecture, business process management and conceptual modelling. My research area is the representation, analysis and design of enterprise models, which intersects conceptual modelling, semantic web, knowledge representation and data analytics. I develop my research at INESC-ID's IDSS and work as consultant at INESC-INO V. I regularly participate in consultancy projects and in European framework R&D programme projects. I am a member of ACM, IEEE and the Enterprise Engineering Network.

**Pável Pereira Calado**

**PhD:** Universidade Federal de Minas Gerais, Brasil, 2004  
*Assistant Professor*  
**Phone:** +351 933 653 624  
**E-mail:** pavel.calado@tecnico.ulisboa.pt  
**Webpage:** <http://web.tecnico.ulisboa.pt/pavel.calado/>

**Research Areas and Interests**

Pável Pereira Calado is currently interested in the areas of information retrieval, information extraction, and recommender systems. More specifically, he is interested in applying machine learning techniques to the processing of textual documents in order to extract information therein contained, such as named entities and relations, opinions, sentiments, or to answer the information needs of users.

**Academic Info and Highlights**

Received 3 Best Student Paper awards and 1 Best Paper award in top international conferences. General chair for the First and Second DataStorm Big Data Summer Schools. Member of organizing committees for two national and one international conferences. Member of program committees for more than ten international conferences. Published more than 70 papers in top international journals and conferences.

**Paulo Jorge Fernandes Carreira**

**PhD:** Instituto Superior Técnico, 2008  
*Assistant Professor*  
**Phone:** +351 966 716 670  
**E-mail:** paulo.carreira@tecnico.ulisboa.pt  
**Webpage:** <http://web.tecnico.ulisboa.pt/paulo.carreira>

**Research Areas and Interests**

Paulo's current research primarily focuses on the agile creation of highly modular software for data intensive applications such as Energy Management and Building Control. Paulo's research also focuses on Data Integration techniques for streaming real-time data and their integration with Building Information Models (BIM).

**Academic Info and Highlights**

Paulo Carreira is a Senior Researcher at INESC-ID and lecturer of Software Engineering and Database Subjects at IST. He is the co-organizer of multiple summer schools and international workshops on the topics of Energy and Real-Time data. Researcher in multiple high visibilities publically funded national and European research projects. Committee Member for the "Multi-Paradigm Modeling for Cyber-Physical Systems (MPM4CPS) EU COST Action. IEEE Senior Member.

**Maria do Rosário Gomes Osório Bernardo Ponces de Carvalho**

**PhD:** SKEMA Business School, France, 2016  
*Invited Assistant Professor*  
**Phone:** +351 969 087 745  
**E-mail:** Rosario.b@netcabo.pt  
**Webpage:** <https://fenix.tecnico.ulisboa.pt/homepage/ist24679>

**Research Areas and Interests**

Program and project management; Project governance; Risk management

**Academic Info and Highlights**

Investigadora INESC

**Jan Gunnar Cederquist**

**PhD:** University of Gothenburg, Sweden, 1997  
*Assistant Professor*  
**Phone:** +351 214 233 262  
**E-mail:** jan.cederquist@tecnico.ulisboa.pt  
**Webpage:** <http://web.tecnico.ulisboa.pt/~jan.cederquist/>

**Research Areas and Interests**

Interested in mathematical modelling, formal specification and verification. Current research involves design and verification of security protocols, and language based information flow security.

**Academic Info and Highlights**

Researcher in the Security and Quantum Information group of Instituto de Telecomunicações. Member of the FCT-funded project Elven → Expressive Logics for Verifying the Net.  
Teaching the BSc courses of Foundations of Programming and Introduction to Algorithms and Data Structures.

**Ricardo Jorge Fernandes Chaves**

**PhD:** Technical University of Delft, Netherlands, and Instituto Superior Técnico, 2007  
*Assistant Professor*  
**Phone:** +351 213 100 212  
**E-mail:** ricardo.chaves@inesc-id.pt  
**Webpage:** <http://sips.inesc-id.pt/~rjfc>

**Research Areas and Interests**

His research interests are focused on cryptography systems, reconfigurable hardware architectures, and on embedded and user oriented systems

**Academic Info and Highlights**

He has published more than 50 papers in international journals and conferences, with more than 700 citations on Google Scholar, with an h-index of 14. Supervised more than 25 MSc students and one PhD student.  
Professionally, he is the vice coordinator of the embedded lab of INESC-ID and the scientific coordinator of the Signal Processing Group.  
He is an active member of HiPEAC3 and is in the Management Committee of EU COST Actions TRUDEVICE and CRYPTARCUS (vice-leader of WG3). Is a technical adviser for the Portuguese National Security Cabinet (since 2008). As also server in the program committee and track chair of several international conferences and is a senior member of IEEE. He is involved in several ongoing European projects.

**Maria Luísa Torres Ribeiro Marques da Silva Coheur**

**PhD:** Instituto Superior Técnico and Université Blaise-Pascal, France, 2004  
*Assistant Professor*  
**Phone:** +351 936 621 780  
**E-mail:** luisa.coheur@tecnico.ulisboa.pt  
**Webpage:** [https://www.l2f.inesc-id.pt/wiki/index.php/Lu%C3%ADsa\\_Coheur](https://www.l2f.inesc-id.pt/wiki/index.php/Lu%C3%ADsa_Coheur)

**Research Areas and Interests**

Language acquisition, Natural Language Understanding, Dialogue Systems, Question Answering and Machine Translation.

**Academic Info and Highlights**

Teaches Logic for Programming (LEIC-T) and Natural Language (MEIC-T). Received the “Excellence in Teaching” award. Participated in several National (eSPERTo and INSIDE) and European Projects (SpeDial, Law-Train, Rage). Member of the COST European Network on Integrating Vision and Language. Organiser of “Verão na Universidade de Lisboa”, Tagus campus. Sabbatical leave (2nd semester 2014-15) in Unbabel and Microsoft Language Development Center.

**Miguel Nuno Dias Alves Pupo Correia**

**PhD:** Universidade de Lisboa, 2003

*Associate Professor*

**Phone:** +351 213 100 278

**E-mail:** miguel.p.correia@tecnico.ulisboa.pt

**Webpage:** <http://homepages.gsd.inesc-id.pt/~mpc/>

**Research Areas and Interests**

Miguel Correia is a researcher at INESC-ID in the Distributed Systems Group (GSD). He has been involved in several international and national research projects related to intrusion tolerance and security, including the SafeCloud, PCAS, TLOUDS, ReSIST, CRUTIAL, and MAFTIA European projects. He has more than 100 international publications and is Senior Member of the IEEE. His main research interests are: cyber-security, cloud computing, software security, big data analytics for security, critical infrastructure protection, distributed systems, machine learning for security, intrusion tolerance.

**Academic Info and Highlights**

Miguel Correia usually teaches courses in cyber-security. He is currently the coordinator of the Master Degree (MSc) in Information Systems and Computer Engineering.

**Maria dos Remédios Vaz Pereira Lopes Cravo**

**PhD:** Instituto Superior Técnico, 1992

*Assistant Professor*

**Phone:** +351 218 417 265

**E-mail:** maria.cravo@tecnico.ulisboa.pt

**Webpage:** <https://fenix.tecnico.ulisboa.pt/homepage/ist11990>

**Research Areas and Interests**

Maria dos Remédios Cravo's research interests are in artificial intelligence, namely reasoning, belief revision and planning.

**Academic Info and Highlights**

Maria dos Remédios Cravo currently teaches the courses Fundamentals of Programming and Logic for Programming.

**Rui António dos Santos Cruz**

**PhD:** Instituto Superior Técnico, 2013

*Assistant Professor*

**Phone:** +351 218 417 678

**E-mail:** rui.s.cruz@tecnico.ulisboa.pt

**Webpage:** <http://www.inesc-id.pt/member.php?pid=8454>

**Research Areas and Interests**

Associate researcher at INESC-ID. Research areas in the field of next generation broadband services and networks, with particular focus on multimedia streaming with quality adaptation, QoS, QoE and services management.

**Academic Info and Highlights**

Senior Member of IEEE, served since 2002 in positions of vice-chair and chair of the IEEE Portugal Section. In 2015-2016 he is member of the IEEE Region 8 N&A Sub-Committee. "Excellence in Teaching at IST" award recipient 2015. Member of the program/scientific committee for the following conferences: 8th Iberian Conference on Information Systems and Technologies, 2015 International Conference on Future Networks Systems and Security, Fifth International Conference on Communication Systems and Network Technologies. Member of the reviewer committee for the following magazines: Multimedia Tools and Applications, IEEE Transactions on Multimedia, IEEE Communications Magazine, Multimedia Systems, Computer Communications. Classes: Services Engineering, IT Infrastructure Management and Administration, Independent Studies.

**Alberto Manuel Ramos da Cunha**

**PhD:** Instituto Superior Técnico, 1993

*Assistant Professor*

**Phone:** +351 218 419 658

**E-mail:** alberto.cunha@tecnico.ulisboa.pt

**Webpage:** <https://fenix.tecnico.ulisboa.pt/homepage/ist11959>

**Research Areas and Interests**

Sensing and information in smart cities, technology transfer and technology based entrepreneurship.

**Academic Info and Highlights**

Chairman of the General Meeting of the Portuguese Association of Science and Technology Parks (TecParques). Classes: Introduction to Computer Architecture, Operating Systems (BSc in Computer Science and Engineering), Ambient Intelligence (MSc in Computer Science and Engineering and MSc in Energy Engineering and Management).

**José Carlos Martins Delgado**

**PhD:** Instituto Superior Técnico, 1988

*Associate Professor*

**Phone:** +351 214 233 205

**E-mail:** jose.delgado@tecnico.ulisboa.pt

**Webpage:** <https://fenix.tecnico.ulisboa.pt/homepage/ist11899>

**Research Areas and Interests**

Distributed interoperability, distributed programming; distributed computing platforms; service based systems, model theoretic semantics.

**Academic Info and Highlights**

Member of the program committee for the following conferences: IEEE 9th MESOCA (2015); ISTA (2015); 6th EUSPN (2015); 4th ISI (2016); IEEE 10th MESOCA (2016); 2nd ISTA (2016). Member of the reviewer committee for the following magazines: National Academy Science Letters; Journal of Systems and Software. Courses lectured: Introduction to Computer Architecture; IT Infrastructure Management and Administration.

**João Miguel de Sousa de Assis Dias**

**PhD:** Instituto Superior Técnico, 2013

*Assistant Professor*

**Phone:** +351 962 653 132

**E-mail:** joao.dias@gaips.inesc-id.pt

**Webpage:** <http://gaips.inesc-id.pt/jdias>

**Research Areas and Interests**

João Dias is a researcher at INESC-ID. In his research, he is interested in developing and studying cognitive, emotional and social agents, and is currently exploring the use of emotional intelligence skills in agents to establish social relations with others in interactive scenarios. He obtained his Doctoral degree in Computer Science in January 2013, and participated in the EU-funded projects VICTEC, eCircus, LIREC and eCute. He has (co)authored about 30 peer-reviewed publications in international journals, conferences and books.

**Academic Info and Highlights**

João Dias teaches the courses Introduction to Programming, Artificial Intelligence, Logic Programing, and Autonomous Agents and Multi-Agent Systems. He also created the master's course on Artificial Intelligence for Games. He was part of the organizing committee of the workshop on Affective Agents held at IVA in 2014. Recipient of multiple "Excellence in Teaching" awards at IST.

**Maria Inês Camarate de Campos Lynce Faria**

**PhD:** Instituto Superior Técnico, 2005

*Associate Professor*

**Phone:** +351 213 100 290

**E-mail:** ines.lynce@tecnico.ulisboa.pt

**Webpage:** <http://sat.inesc.pt/~ines>

**Research Areas and Interests**

Ines Lynce's research is focused on modeling and solving hard combinatorial problems using constraint solving and optimization techniques. Examples of these problems include software package upgradeability, biological networks, phylogenetic trees and crew scheduling.

**Academic Info and Highlights**

Member of the editorial board of the Journal of Artificial Intelligence Research. Co-organizer of the SAT/SMT/AR Summer School 2016. Invited speaker at the ECCAI Summer School 2015. Program committee member of SAT, CP, AAAI and IJCAI. Coordinator of the Bologna Degree in Information Systems and Computer Engineering (LEIC) at the Alameda campus. Recipient of the "Excellence in Teaching" award at IST.

**Alfredo Manuel dos Santos Ferreira**

**PhD:** Instituto Superior Técnico, 2009

*Assistant Professor*

**Phone:** +351 939 017 998

**E-mail:** alfredo.ferreira@tecnico.ulisboa.pt

**Webpage:** <http://alfredoferreira.eu>

**Research Areas and Interests**

3D Shape Analysis and Retrieval. Natural User Interfaces. Virtual and Augmented Reality. Immersive Multi-sensory Environments. Human-Computer Interaction

**Academic Info and Highlights**

Alfredo Ferreira is an Assistant Professor at the Instituto Superior Técnico, University of Lisbon. He is also a researcher of the Visualization and Intelligent Multimodal Interfaces Group at INESC-ID Lisboa. He was involved in three EC funded projects and seven nationally funded projects. He was a member of the organizing committee of the INTERACT 2011 and Eurographics 2016 conferences. Alfredo Ferreira is member of ACM, IEEE and Eurographics.

**Diogo Manuel Ribeiro Ferreira**

**PhD:** Universidade do Porto, 2004  
*Assistant Professor*  
**Phone:** +351 214 233 552  
**E-mail:** diogo.ferreira@tecnico.ulisboa.pt  
**Webpage:** <http://web.tecnico.ulisboa.pt/diogo.ferreira/>

**Research Areas and Interests**

Process Mining, Systems Integration, Data Analysis, GPU Computing, Deep Learning

**Academic Info and Highlights**

Organizer of the 11th International Workshop on Business Process Intelligence. Author of the book “Enterprise Systems Integration: A Process-Oriented Approach”.

**Paulo Jorge Pires Ferreira**

**PhD:** Université Pierre et Marie Curie, France, 1996  
*Associate Professor with Habilitation*  
**Phone:** +351 213 100 230  
**E-mail:** paulo.ferreira@inesc-id.pt  
**Webpage:** <http://www.gsd.inesc-id.pt/~pjpf>

**Research Areas and Interests**

Paulo Ferreira’s research work covers the scientific research area of distributed systems, with emphasis on middleware, mobile and cloud computing, security, and operating systems

**Academic Info and Highlights**

He was awarded two Best Paper awards in a top-level ACM/IFIP/Usenix international conference and received the “Excellence in Teaching” award at IST for the courses Mobile Computing and Operating Systems. He is currently coordinator of the MSc degree in Telecommunications and Informatics Engineering (METI). He coordinates the H2020 European Project TRACE ([www.h2020-trace.eu](http://www.h2020-trace.eu)). He was one of the founders and board officers of EuroSys (ACM - European Chapter of the Special Interest Group on Operating Systems) and is currently member of the steering committee. He is also a senior member of ACM and IEEE.

**Alexandre Paulo Lourenço Francisco**

**PhD:** Instituto Superior Técnico, 2010  
*Assistant Professor*  
**Phone:** +351 218 419 832  
**E-mail:** aplf@tecnico.ulisboa.pt  
**Webpage:** <https://web.tecnico.ulisboa.pt/aplf>

**Research Areas and Interests**

Applied Mathematics and Computer Science, with particular interests on algorithms and data structures, graphs, computer programming and applications on complex network mining, optimization and simulation, and computational biology.

**Academic Info and Highlights**

Researcher at INESC-ID. Responsible for the curricular unit on Advanced Algorithms (MEIC-A) and lecturer of Complex Networks (MEIC-A), Foundations of Programming (LEIC-T and LETI), and Introduction to Algorithms and Data Structures (LEIC-A). He has collaborated on several national and international research projects dealing with problems from computational biology, network mining and large data processing.

**Ana Teresa Correia de Freitas**

**PhD:** Instituto Superior Técnico, 2002  
*Full Professor*  
**Phone:** +351 213 100 384  
**E-mail:** ana.freitas@tecnico.ulisboa.pt  
**Webpage:** <http://web.tecnico.ulisboa.pt/ana.freitas/>

**Research Areas and Interests**

Current research interests are centred in the areas of Bioinformatics, Metagenomics, Human genetics, Health Informatics, Algorithms and Data Mining. Current projects are focused on the areas of applications in genetics and medical diagnosis of cardiac diseases and metagenomics for oil and gas.

**Academic Info and Highlights**

Member of the Scientific Council at IST. Member (CFO) of the executive committee of the Computer Science and Engineering Department (DEI). Scientific Coordinator to the scientific area of Programming Methodology and Technology at DEI. Member of the scientific board of the MSc degree in Biomedical Engineering at IST. Member of the board of ELIXIR, representing Portugal (<http://www.elixir-europe.org/>). Senior researcher at the IDSS group from INESC-ID. CEO of HeartGenetics Genetics and Biotechnology SA, a spin-off of IST.

**Helena Isabel de Jesus Galhardas**

**PhD:** Université de Versailles, France, 2001

*Assistant Professor*

**Phone:** +351 214 233 246

**E-mail:** [helena.galhardas@tecnico.ulisboa.pt](mailto:helena.galhardas@tecnico.ulisboa.pt)

**Webpage:** <http://web.ist.utl.pt/helena.galhardas/>

**Research Areas and Interests**

Data cleaning, Data quality, Information extraction, ETL (Extraction, Transformation, Loading)

**Academic Info and Highlights**

Helena served in the Program Committee of: CBMS 2015 and 2016, EDBT 2016, QDB 2016, and as external reviewer of JDIQ 2015 and 2016. In 2015/16 , she taught four courses: i) Databases (BSc in Computer Science and Engineering), ii) Data Analysis and Integration and iii) Data Administration in Information Systems (both in MSc in Computer Science and Engineering), and iv) Data Quality (PhD in Computer Science and Engineering).

**Sandra Pereira Gama**

**PhD:** Instituto Superior Técnico, 2015

*Invited Assistant Professor*

**Phone:** +351 918 556 523

**E-mail:** [sandra.gama@tecnico.ulisboa.pt](mailto:sandra.gama@tecnico.ulisboa.pt)

**Webpage:** <http://web.tecnico.ulisboa.pt/~sandra.gama/>

**Research Areas and Interests**

Information Visualization, Human-Machine Interfaces

**Academic Info and Highlights**

Researcher at VIMMI (Visualization and Multimodal Interfaces) at INESC-ID

**João Coelho Garcia**

**PhD:** Instituto Superior Técnico, 2009

*Assistant Professor*

**Phone:** +351 213 100 225

**E-mail:** [joao.c.garcia@tecnico.ulisboa.pt](mailto:joao.c.garcia@tecnico.ulisboa.pt)

**Webpage:** [www.gsd.inesc-id.pt/~jog](http://www.gsd.inesc-id.pt/~jog)

**Research Areas and Interests**

Distributed Systems, Cloud Computing, Fault replication, Large scale computing

**Academic Info and Highlights**

Current Courses: Cloud Computing and Virtualization, Design and Implementation of Distributed Applications

**Alberto Abad Gareta**

**PhD:** Univesitat Politècnica de Catalunya, Spain, 2007

*Assistant Professor*

**Phone:** +351 213 100 217

**E-mail:** [alberto.abad@tecnico.ulisboa.pt](mailto:alberto.abad@tecnico.ulisboa.pt)

**Webpage:** [https://www.l2f.inesc-id.pt/wiki/index.php/Alberto\\_Abad\\_Gareta](https://www.l2f.inesc-id.pt/wiki/index.php/Alberto_Abad_Gareta)

**Research Areas and Interests**

Prof. Alberto Abad research interests include general speech communication processing and modeling topics, such as robust speech recognition, speaker and language identification, computational paralinguistics, and health-care applications.

**Academic Info and Highlights**

Prof. Alberto Abad is an *assistant professor* at IST, since 2015, and senior researcher in INESC-ID since 2007. He obtained the Telecommunication Engineering degree in 2002 and the PhD in 2007 both from the Technical University of Catalonia (UPC), where he was also a lecturer. Since his arrival at INESC-ID, he has been Principal Investigator of the FCT funded project VITHEA and INESC-ID representative in the DIRHA European project, besides team member in several national and international projects, and team leader in several international technological evaluation challenges achieving excellent results. He has been lecturer in several DEI and DEEC courses.

#### Mário Rui Fonseca dos Santos Gomes

**PhD:** Instituto Superior Técnico, 1991

*Associate Professor with Habilitation*

**Phone:** +351 963 048 891

**E-mail:** mario.gomes@tecnico.ulisboa.pt

**Webpage:** <http://gaips.inesc-id.pt/component/gaips/people/displayPerson/8/15>

#### Research Areas and Interests

Mário Rui Gomes is a senior research of GAIPS, Intelligent Agents & Synthetic Characters Group at, INESC-ID. Current research interests are Usability, Massive Open Online Course, (MOOCs) and Geographic Information Systems (GIS).

#### Academic Info and Highlights

Mário Rui Gomes teaches Human-Computer Interaction (LEIC-T), Computer Graphics (LEIC-T) and Usability and Information Systems (USI) (MISE, Master on Information and Business Systems, joint master between DEI and Open University).

From the last 30 years Mário Rui Gomes has been a very proactive member of OE, GeoCompetivo Group at APDSI. He was founding member of CEI/OE, IFIP WG5.10, GPCG, and APDSI.

#### Daniel Jorge Viegas Gonçalves

**PhD:** Instituto Superior Técnico, 2007

*Associate Professor*

**Phone:** +351 213 100 248

**E-mail:** daniel.j.goncalves@tecnico.ulisboa.pt

**Webpage:** <http://danielgoncalves.info>

#### Research Areas and Interests

Daniel Gonçalves is a researcher at the VIMMI (INESC-ID), in Information Visualization, personal information management and accessibility, studying how to visualize personal information to provide users with insights on their lives. He authored over 150 papers in peer-reviewed journals, conferences and books.

#### Academic Info and Highlights

He is a member of the scientific committee of MISE and in 2015 became Editorial Board Member of the Universal Access in the Information Society Journal (Springer). He created an InfoVis course in MEIC and continues to research and use novel pedagogical techniques, namely Gamification, to the Multimedia Content Production course.

#### Joaquim Armando Pires Jorge

**PhD:** Rensselaer Polytechnic Institute, USA, 1995

*Full Professor*

**Phone:** +351 213 100 363

**E-mail:** jorgej@acm.org

**Webpage:** <http://web.tecnico.ulisboa.pt/jorgej>

#### Research Areas and Interests

Multimodal Interfaces, VR, Gamification

#### Academic Info and Highlights

Joaquim Jorge heads the Visualization and Multimodal Interfaces Group at INESC-ID. He was PC Co-Chair of Eurographics 2016 & ACM IUI 2012 and is Editor-in-Chief of the Computers & Graphics Journal (Elsevier) since 2007. He is ACM (2007-) and IEEE (2000-) Senior Member. A National Delegate to IFIP TC13 (Human Computer Interaction) 2000-2013, he received the IFIP Silver Core Award in 2014. An ACM Distinguished Speaker since 2015, he is ACM/SIGGRAPH Specialized Conferences Committee Chair since 2014 and was elected to the ACM Europe Council in 2015. He has published 45+ Journal and 150+ Conference papers. He is a Fellow of the Eurographics Association since 2010.

#### António Paulo Teles de Menezes Correia Leitão

**PhD:** Instituto Superior Técnico, 2001

*Assistant Professor*

**Phone:** +351 966 470 094

**E-mail:** antonio.menezes.leitao@tecnico.ulisboa.pt

**Webpage:** <http://web.tecnico.ulisboa.pt/antonio.menezes.leitao>

#### Research Areas and Interests

Software engineering, particularly, clone detection and computer-aided design. Programming languages, particularly, languages for generative design.

#### Academic Info and Highlights

Studied Civil, Mechanical, Electrotechnical, and Software Engineering. His research interests include Artificial Intelligence, Programming Language Design and Implementation, Software Reengineering, Computer-Aided Design, and Generative Design. He has served as conference chair, conference organizer, program committee member and reviewer of international and national conferences, and journal editor and reviewer. He is the Scientific Coordinator of INESC-ID's Software Engineering Group. He currently teaches on Programming Languages, Programming for Architecture, and Advanced Programming, and is the principal developer of the Rosetta tool, a programming environment for Generative Design.

### João Manuel Brisson Lopes

**PhD:** Instituto Superior Técnico, 1987

*Assistant Professor*

**Phone:** +351 218 417 373

**E-mail:** brisson@tecnico.ulisboa.pt

**Webpage:** <https://fenix.tecnico.ulisboa.pt/homepage/ist11355>

#### Research Areas and Interests

João Brisson's interests are interaction and user centred design, accessibility, visualization of scientific data, visualization and analysis of GPS based performance data and course planning, and interactive digital television.

#### Academic Info and Highlights

João Brisson is project evaluation expert in several science and technology development programmes. He participates as advisor to projects on environmental protection preparedness and defences and projects on renewable energy. He currently teaches graduate courses on user centred design and undergraduate courses on computer graphics and human-computer interaction. João serves also as team captain of the Masters Ski Team Portugal.

### Manuel Fernando Cabido Peres Lopes

**PhD:** Instituto Superior Técnico, 2006

*Associate Professor*

**Phone:** +351 214 233 221

**E-mail:** manuel.lopes@tecnico.ulisboa.pt

**Webpage:** <http://web.tecnico.ulisboa.pt/manuel.lopes/>

#### Research Areas and Interests

Manuel Lopes is an associated professor at Instituto Superior Técnico and a senior researcher at INESC-ID and Inria. His main interest is the study of the fundamental mechanisms of learning in machines and animals, and its application to understanding exploration in animals, human-robot collaboration, autonomous robots and intelligent tutoring systems.

#### Academic Info and Highlights

Manuel Lopes is the coordinator of the european project Semi-Autonomous 3rd-Hand Robot and other international collaborations (Neurocuriosity). He is very active in multiple communities including artificial intelligence (AAAI, IJCAI), machine learning (NIPS, ICML), robotics (ICRA, IROS, RSS) and computational neuroscience, where he frequently serve as program committee member and organizes scientific workshops.

### Sara Alexandra Cordeiro Madeira

**PhD:** Instituto Superior Técnico, 2008

*Assistant Professor*

**Phone:** +351 213 100 324

**E-mail:** sara.madeira@tecnico.ulisboa.pt

**Webpage:** <http://web.tecnico.ulisboa.pt/sara.madeira>

#### Research Areas and Interests

Sara C. Madeira is senior researcher at INESC-ID where she received the 2013 Young Researcher award. She is interested in algorithms, data science, bioinformatics and medical informatics. She is leading NEUROCLINOMICS2 - Unravelling Prognostic Markers in NEUROdegenerative diseases through CLINical and OMICS data integration, a project embracing the challenges of studying complex diseases and developing efficient/effective mining algorithms for biomedical data.

#### Academic Info and Highlights

Sara C. Madeira teaches undergraduate courses on programming, algorithms and data structures and graduate courses on computational biology and integrative bioinformatics. She co-chaired the 14th and 15th International Workshop on Data Mining in Bioinformatics held at ACM SIGKDD. In 2015 she was on sabbatical at University of Bologna and was EURIAS Junior Fellow.

### Nuno João Neves Mamede

**PhD:** Instituto Superior Técnico, 1992

*Associate Professor with Habilitation*

**Phone:** +351 213 100 367

**E-mail:** nuno.mamede@tecnico.ulisboa.pt

**Webpage:** [https://www.l2f.inesc-id.pt/wiki/index.php/Nuno\\_Mamede](https://www.l2f.inesc-id.pt/wiki/index.php/Nuno_Mamede)

#### Research Areas and Interests

Nuno Mamede is member of the Spoken Language Systems Laboratory at INESC-ID. His main research interests are in natural language processing, namely syntactic and semantic analysis of Portuguese texts, tutoring systems to support the teaching of Portuguese for either native or foreign speakers, and data anonymization.

#### Academic Info and Highlights

Nuno Mamede received, in the last 4 years, the “Excellence in Teaching” award at IST for the course Natural Language Processing. He is currently coordinator of the BSc degree in Computer Science and Engineering – Taguspark.

**Vasco Miguel Gomes Nunes Manquinho**

**PhD:** Instituto Superior Técnico, 2006  
*Associate Professor*  
**Phone:** +351 213 100 204  
**E-mail:** vasco.manquinho@inesc-id.pt  
**Webpage:** <http://sat.inesc-id.pt/~vmm/>

**Research Areas and Interests**

Vasco Manquinho is a senior researcher at the Software Algorithms and Tools for Constraint Optimization (SAT) group at INESC-ID. His main research interest has been on developing new models and algorithms for constraint optimization with application in areas such as bioinformatics and software management, among others. He has co-developed software tools that are used worldwide and define the state of the art in Boolean optimization, having won several tracks in international competitions.

**Academic Info and Highlights**

He has been responsible for the curricular unit of Analysis and Synthesis of Algorithms (LEIC-A) and co-responsible of Algorithms for Computational Logic (MEIC-A). Received the excellence in teaching distinction in 2015. Member of the executive committee of the Computer Science and Engineering Department from 2011 until 2015. He is currently director of INESC-ID.

**José Manuel da Costa Alves Marques**

**PhD:** Institut Nationale Polytechnique de Grenoble, France, 1980  
*Full Professor*  
**Phone:** +351 213 100 157  
**E-mail:** jose.alves.marques@tecnico.ulisboa.pt  
**Webpage:** <https://fenix.tecnico.ulisboa.pt/homepage/ist12023>

**Research Areas and Interests**

José Alves Marques' scientific interests over the years have been on IT enabling platforms, namely operating systems, distributed systems, computer architecture and software integration. His current area of interest relates to the Internet of Things, and on the IT architectures for integration in large organizations. Within the Link's companies, several R&D projects have also been proposed and developed in topics related to electronic payments, electronic ticketing, test automation and enterprise architecture.

**Academic Info and Highlights**

Vice-president for the undergraduate studies and the master degree courses of the Department. Responsible for the courses Distributed Systems and Enterprise Integration. Responsible for the CIO@IST program.

**Carlos António Roque Martinho**

**PhD:** Instituto Superior Técnico, 2007  
*Assistant Professor*  
**Phone:** +351 214 233 251  
**E-mail:** carlos.martinho@tecnico.ulisboa.pt  
**Webpage:** <http://gaips.inesc-id.pt/component/gaips/people/displayPerson/8/7>

**Research Areas and Interests**

Carlos Martinho is Senior Researcher of GAIPS at INESC-ID. His research focuses on applying artificial intelligence, in particular affective computing, to support the creative development process of digital games, and enhance user experience through believable interaction with synthetic characters.

**Academic Info and Highlights**

He has co-authored over 100 scientific papers on these subjects, the book "Design e Desenvolvimento de Jogos", participated in more than a dozen international research projects, and acts as reviewer for the main international journals and conferences in the field. At IST, he lectures on games and experience design, artificial life and computer graphics, and received several excellence awards for his teaching.

**Bruno Emanuel da Graça Martins**

**PhD:** Universidade de Lisboa, 2009  
*Assistant Professor*  
**Phone:** +351 214 233 287  
**E-mail:** bruno.g.martins@tecnico.ulisboa.pt  
**Webpage:** <http://web.tecnico.ulisboa.pt/bruno.g.martins/>

**Research Areas and Interests**

Bruno Martins is a researcher at the Information and Decision Support Systems Lab of INESC-ID. His main research interests relate to handling geographic aspects in connection to supporting the access, processing, and retrieval of textual information.

**Academic Info and Highlights**

Bruno is a member of the information systems area of DEI/IST, and he teaches courses related to information management. He has extensive reviewing experience (e.g. in 2016 he was PC member for conferences like SIGSPATIAL, CIKM or EMNLP). He was one of the local organizers for EMNLP'15 and, in 2016, he was one of the co-organizers of the Lisbon Machine Learning School (LxMLS).

**João Emílio Segurado Pavão Martins**

**PhD:** State University of New York at Buffalo, USA, 1983

*Full Professor*

**Phone:** +351 218 418 178

**E-mail:** jpmartins@siscog.pt

**Webpage:** [https://fenix.ist.utl.pt/homepage/ist11416?locale=en\\_EN](https://fenix.ist.utl.pt/homepage/ist11416?locale=en_EN)

**Research Areas and Interests**

Knowledge Representation and Reasoning, Belief Revision

**Academic Info and Highlights**

Senior Member of the Association for the Advancement of Artificial Intelligence. Up to 2015, João Pavão Martins has served as vice president of the Department of Computer Science and Engineering (DEI) with the responsibility of undergraduate and master's education.

**Ana Gualdina Almeida Matos**

**PhD:** École des Mines de Paris, France, 2006

*Assistant Professor*

**Phone:** +351 214 233 262

**E-mail:** ana.matos@tecnico.ulisboa.pt

**Webpage:** <http://web.tecnico.ulisboa.pt/~ana.matos/>

**Research Areas and Interests**

Interested in language based security, in particular the application of type systems and other program analysis techniques to securing properties in concurrent, distributed and mobile settings. Current research focuses on client-side Web security and data-centric concurrency control.

**Academic Info and Highlights**

Researcher in the Security and Quantum Information Group of Instituto de Telecomunicações. Member of the FCT-funded project Elven Expressive Logics for VErifying the Net.

Coordinating the MSc course Software Security. Lecturing the BSc courses Foundations of Programming, Introduction to Algorithms and Data Structures

and Analysis and Synthesis of Algorithms.

**David Martins de Matos**

**PhD:** Instituto Superior Técnico, 2005

*Assistant Professor*

**Phone:** +351 213 100 305

**E-mail:** david.matos@tecnico.ulisboa.pt

**Webpage:** <https://www.l2f.inesc-id.pt/~david/>

**Research Areas and Interests**

Computational music processing, Computational creativity, Automatic summarization, Automatic natural language generation, Dialog systems, Natural language semantics, Lexicography.

**Academic Info and Highlights**

David Martins de Matos has been teaching at IST since 1993 (programming, compilers, distributed systems, natural language processing, among others). He has been a researcher since 1988, at INESC (1988-2000), at IST (1997-2001), and at INESC-ID's Spoken Language Systems Lab (2001-present). He has been active in academic and industrial (banking, telecommunications, risk analysis) projects, both national and international. He is a senior member of the ACM (SIGMM, SIGIR) and of the IEEE (Signal Processing Society, Robotics and Automation Society, Computer Society). He is also a member of the Order of Portuguese Engineers.

**Francisco António Chaves Saraiva de Melo**

**PhD:** Instituto Superior Técnico, 2007

*Assistant Professor*

**Phone:** +351 214 465 908

**E-mail:** fmelo@inesc-id.pt

**Webpage:** <http://gaips.inesc-id.pt/~fmelo/>

**Research Areas and Interests**

Machine learning (reinforcement learning, active learning); applications of machine learning in robotics.

**Academic Info and Highlights**

Francisco S. Melo is an assistant Professor at Instituto Superior Técnico, University of Lisbon, and a researcher in the GAIPS group of INESC-ID. He received his PhD in Electrical and Computer Engineering at Instituto Superior Técnico in 2007. He held previous appointments with Carnegie Mellon University, in the USA, and the Institute for Systems and Robotics, in Lisbon. He participated in several national and international projects, such as RESCUE, CONTACT, LAndroids, LIREC, EMOTE, MAIS+S and INSIDE.

#### Carlos Manuel Martins Mendes

**PhD:** Instituto Superior Técnico, 2013  
*Invited Assistant Professor*  
**Phone:** +351 968 762 708  
**E-mail:** carlos.mendes@tecnico.ulisboa.pt  
**Webpage:** <https://fenix.tecnico.ulisboa.pt/homepage/ist155338>

#### Research Areas and Interests

Carlos is interested in two main areas; enterprise engineering, and service innovation. With regards to the first one, most of the current modeling techniques are limited in terms of the model acquisition process. The acquisition process is mostly manual, usually supported by interviews, surveys, and document analysis. This type of acquisition is time-consuming and requires effort, making it impossible to reflect organizational changes as soon as they take place. In this area, He believes that a workflow engine based on Enterprise Ontology theory could contribute to the state of art. Regarding the second research area (service innovation), despite the contributions to this discipline, there is still the need for further development. He believes that enterprise-engineering principles could be applied to better understand value creation in multi-actor, network, and collaborative contexts.

#### Academic Info and Highlights

Carlos Mendes is an *Invited Assistant Professor* at Instituto Superior Técnico, here he concluded his PhD in 2013. His PhD thesis focused on the gap between customers' expectations and perceived service and he proposed to solve it using dynamic Service Level Agreements negotiation.

#### José Carlos Alves Pereira Monteiro

**PhD:** Massachusetts Institute of Technology, USA, 1996  
*Associate Professor with Habilitation*  
**Phone:** +351 213 100 283  
**E-mail:** jcm@inesc-id.pt  
**Webpage:** <http://algos.inesc-id.pt/~jcm>

#### Research Areas and Interests

José Monteiro is a senior researcher at INESC-ID. His research interests are in the area of computer architectures, namely, parallel computing, compilers, embedded systems, and design automation for digital systems.

#### Academic Info and Highlights

Director of INESC-ID 2008-2015. Chair of the D.12 Topic of the IEEE/ACM Design, Automation and Test in Europe (DATE) for 2014 and 2015. Member of the steering committee of the International Symposium Power and Timing Modeling, Optimization and Simulation (PATMOS) since 2008.

#### Pedro Tiago Gonçalves Monteiro

**PhD:** Instituto Superior Técnico and Université Claude Bernard Lyon 1, France, 2010  
*Invited Assistant Professor*  
**Phone:** +351 213 100 320  
**E-mail:** Pedro.Tiago.Monteiro@tecnico.pt  
**Webpage:** <http://pedromonteiro.org>

#### Research Areas and Interests

Pedro T. Monteiro is a researcher at INESC-ID and the recipient of a FCT research starting grant. His research interests are related to the analysis and validation of discrete systems applied to systems biology.

#### Academic Info and Highlights

Pedro T. Monteiro taught courses on Compilers. He is a member of the INForum2016 program committee (Bioinformatics track). He belongs to the Consortium for Logical Models and Tools (<http://CoLoMoTo.org>). He is responsible for the maintenance of the <http://yeastract.com> information system. He leads a national research project on semi-automatic revision of genetic regulatory networks (funded by FCT).

#### Ernesto José Marques Morgado

**PhD:** State of New York at Buffalo, USA, 1986  
*Associate Professor*  
**Phone:** +351 218 417 641  
**E-mail:** ernestomorgado@tecnico.ulisboa.pt  
**Webpage:** <https://fenix.tecnico.ulisboa.pt/homepage/ist11585>

#### Research Areas and Interests

Artificial intelligence, search and optimisation, planning and scheduling, abstract data types.

#### Academic Info and Highlights

Responsible and lecturer for the course Artificial Intelligence at LEIC-A. Responsible and lecturer for the course Search and Planning at MEIC-A and MEIC-T. Chair of exam committee of master's thesis defences at MEIC-A and MEIC-T.

**Jacinto Carlos Marques Peixoto do Nascimento**

**PhD:** Instituto Superior Técnico, 2003  
*Assistant Professor*  
**Phone:** +351 218 412 196  
**E-mail:** jan@isr.tecnico.ulisboa.pt  
**Webpage:** [omni.isr.ist.utl.pt/~jan](http://omni.isr.ist.utl.pt/~jan)

**Research Areas and Interests**

Image processing, Machine learning, Deep learning, Pattern recognition, Computer Vision

**Academic Info and Highlights**

Jacinto lectures the following courses: Person-Machine Interface, Graphics Computation and Interactive Visual Communication

**Hugo Miguel Aleixo Albuquerque Nicolau**

**PhD:** Instituto Superior Técnico, 2013  
*Assistant Professor*  
**Phone:** +351 214 233 566  
**E-mail:** hugo.nicolau@tecnico.ulisboa.pt  
**Webpage:** <http://web.tecnico.ulisboa.pt/hugo.nicolau/>

**Research Areas and Interests**

Hugo Nicolau is a researcher at the Visualization and Intelligent Multimodal Interfaces group at INESC-ID. His research interests include human-computer interaction and accessibility within the field of mobile and wearable computing. He focuses on the design, development, and evaluation of novel interaction techniques for people with disabilities, either induced by mobile context or health factors.

**Academic Info and Highlights**

In the past two years, Hugo Nicolau received two best paper awards at top-level venues (ACM CHI and ACM ITS). He was the local chair of the ACM SIGACCESS conference on computers and accessibility. Hugo is a member of program committees of scientific events, such as ACM ASSETS and W4A. He currently serves as newsletter editor for the ACM Special Interest Group on Accessible Computing. Member of ACM, SIGCHI, and SIGACCESS.

**Renato Jorge Caleira Nunes**

**PhD:** Instituto Superior Técnico, 1995  
*Assistant Professor*  
**Phone:** +351 218 417 173  
**E-mail:** renato.nunes@tecnico.ulisboa.pt  
**Webpage:** <https://fenix.tecnico.ulisboa.pt/homepage/ist12102>

**Research Areas and Interests**

Renato Nunes' research interests are in the areas of intelligent buildings, home automation, smart homes and ambient intelligence. He is especially interested in the areas of energy management and support mechanisms for the elderly to allow "aging in place".

**Academic Info and Highlights**

Renato Nunes is responsible and lecturer for the course Ambient Intelligence at MEIC and the course Devices and Networks for Logistics at MEGI. Recently Renato Nunes participated in two European projects: WSan4CIP - Wireless Sensor and Actuator Networks for the Protection of Critical Infrastructures, and Bank4Elder financed by the Ambient Assisted Living joint program. Currently he is the IST responsible for the H2020 project ALHTOUR - Assisted Living Technologies for the Health Tourism Sector.

**Arlindo Manuel Limede de Oliveira**

**PhD:** University of California, Berkeley, USA, 1994  
*Full Professor*  
**Phone:** +351 218 417 332  
**E-mail:** arlindo.oliveira@tecnico.ulisboa.pt  
**Webpage:** <http://web.tecnico.ulisboa.pt/arlindo.oliveira/>

**Research Areas and Interests**

Algorithms and Complexity, Machine Learning, Computational Biology, Neurosciences

**Academic Info and Highlights**

Arlindo Oliveira is a researcher in the Information and Decision Support Systems of INESC-ID. He is currently the President of IST and the Head of the Portuguese Node of ELIXIR, the European Infrastructure for Bioinformatics.

**Ana Maria Severino de Almeida e Paiva**

**PhD:** University of Lancaster, UK, 1995  
*Full Professor*  
**Phone:** +351 214 233 223  
**E-mail:** ana.paiva@inesc-id.pt  
**Webpage:** <http://gaips.inesc-id.pt/~apaiva>

**Research Areas and Interests**

Prof. Ana Paiva works in the area of Artificial Intelligence, Autonomous Agents and Multi-agent Systems, Affective Computing and Social Robotics.

**Academic Info and Highlights**

Ana Paiva served as a member of numerous international conferences and workshops. In 2016 she was Program Committee co-chair of the Human-Robot Interaction conference. She is also PI of several national and international projects. In 2015/2016 was a member of the Global Agenda Council on Artificial Intelligence and Robotics of the World Economic Forum. In the Department she is also the coordinator of the Doctoral Program in the Department.

**Miguel Filipe Leitão Parda**

**PhD:** Instituto Superior Técnico, 2014  
*Assistant Professor*  
**Phone:** +351 213 100 245  
**E-mail:** miguel.pardal@tecnico.ulisboa.pt  
**Webpage:** <http://web.tecnico.ulisboa.pt/miguel.pardal/>

**Research Areas and Interests**

Miguel Parda is a researcher at INESC-ID in the Distributed Systems Group (GSD). He is currently participating in the Safe Cloud EU Project (H2020). He has more than 30 publications. His main research interests are: Cyber-Security, Internet of Things, Cloud Computing, Distributed Systems, and Enterprise Systems.

**Academic Info and Highlights**

Miguel Parda teaches 'Computer and Network Security' and 'Distributed Systems' courses for graduates and undergraduates, respectively. He is a member of IEEE, ACM, and Ordem dos Engenheiros.

**João Carlos Serrenho Dias Pereira**

**PhD:** Université de Versailles Saint-Quentin-en-Yvelines, France, 2002  
*Assistant Professor*  
**Phone:** +351 214 233 522  
**E-mail:** joao.d.pereira@tecnico.ulisboa.pt  
**Webpage:** <https://fenix.ist.utl.pt:443/homepage/ist13501>

**Research Areas and Interests**

João Dias Pereira is a researcher of the Software Engineering group at INESC-ID. His general research areas and interests include algorithms and software engineering. His primary research interests lie in matching algorithms for publish and subscribe systems and software testing.

**Academic Info and Highlights**

Responsible and lecturer for the course Object Oriented Programming at LEIC-T. Responsible and lecturer for the course Software Testing and Validation at MEIC-A

**João António Madeiras Pereira**

**PhD:** Instituto Superior Técnico, 1996  
*Associate Professor*  
**Phone:** +351 213 100 218  
**E-mail:** joao.madeiras.pereira@tecnico.ulisboa.pt  
**Webpage:** <https://fenix.tecnico.ulisboa.pt/homepage/ist12291>

**Research Areas and Interests**

João Madeiras Pereira is a professor of the Computer Graphics and Multimedia scientific area. He coordinates the Visualization and Simulation action line of the Visualization and Intelligent Multimodal Interfaces (VIMMI) research group at INESC-ID (Computer Systems Engineering Institute). His main research fields are real-time rendering, high-performance graphics, serious games and augmented reality. He is author or co-author of over 120 papers published in peer-reviewed international conferences and publications

**Academic Info and Highlights**

Member of the Scientific Committee of MEIC-A. Associate editor of the Journal of Real-Time Image Processing, Springer. He is affiliated with ACM /SIGGRAPH since 2012, IEEE Computer Society (senior member since 2014). He was a member of both Organizing Committee and International Program Committee of the Eurographics 2016 Conference. He teaches the graduate courses 3D Animation and Visualization, and 3D Programming.

**Ricardo Jorge Feliciano Lopes Pereira**

**PhD:** Instituto Superior Técnico, 2010

*Assistant Professor*

**Phone:** +351 214 233 241

**E-mail:** ricardo.pereira@inesc-id.pt

**Webpage:** <https://fenix.tecnico.ulisboa.pt/homepage/ist14222>

**Research Areas and Interests**

Researcher at INESC-ID. Current research interests include peer-to-peer, QoS and network management, sensor networks, indoor location, building automation systems.

**Academic Info and Highlights**

Leads INESC-ID's participation in the H2020 funded project reTHINK. Member of the TPC of SAC-CN 2016, ICOIN 2016 and IJDSN. Responsible for the Computer Networks BSc level course. Senior Member of the IEEE since June 2015.

**Gabriel César Ferreira Pestana**

**PhD:** Instituto Superior Técnico, 2008

*Invited Assistant Professor*

**Phone:** +351 964 008 918

**E-mail:** gabriel.pestana@tecnico.ulisboa.pt

**Webpage:** <https://fenix.tecnico.ulisboa.pt/homepage/ist14683>

**Research Areas and Interests**

Researcher at INOV INESC Inovação. Promoter of applied research methodologies. Study of situation awareness environments and information sharing platforms for critical info-structures. Study of techniques and models related to data analytics.

**Academic Info and Highlights**

Participation as coordinator or as a project team member on national and international projects. Active participation as work-package and task leader in research projects from PT2020 and H2020 funding programs (e.g., TRILLION, ROCSAFE). Active@Work – international R&D project funded by the Ambient Assisted Living Joint Programme. Design of solutions with innovative approaches addressing end-user information needs for the implementation of business intelligent systems.

**Helena Sofia Andrade Nunes Pereira Pinto**

**PhD:** Instituto Superior Técnico, 2001

*Assistant Professor*

**Phone:** +351 213 100 388

**E-mail:** sofia@inesc-id.pt

**Webpage:** <http://www.inesc-id.pt/member.php?pid=413>

**Research Areas and Interests**

Network analysis, computational creativity, ontology engineering, semantic web, big data, knowledge representation&reasoning, knowledge engineering&management. She participated in several nationally-funded research projects on social network analysis and big data, ex. DataStorm.

**Academic Info and Highlights**

She was Chair of STAIRS 2016. She was Tutorial Chair at ESWC 2016. She was a PC Member for ESWC and EKAW. She has served as project proposal evaluator for the European Commission. She is responsible for the Partnership between MAYS and IST. She taught Knowledge Representation&Reasoning, Logic for Programming, Ontology Engineering for the Semantic Web, Knowledge Management&Knowledge Engineering.

**João Pedro Marques Pombinho**

**PhD:** Instituto Superior Técnico, 2015

*Invited Assistant Professor*

**Phone:** +351 931 018 190

**E-mail:** jmp@tecnico.ulisboa.pt

**Webpage:** <https://fenix.tecnico.ulisboa.pt/homepage/ist149678>

**Research Areas and Interests**

João Pombinho actively researches enterprise engineering and value-oriented systems design. His academic interests also include value modelling, enterprise architecture and enterprise transformation. João is a practitioner in the IT industry since 2005 and conducts applied research in IT demand management, portfolio and benefits management. He is currently Head of IT Demand Management at NOS Comunicações.

**Academic Info and Highlights**

Since 2012 João has lectured POSI post-graduation courses and delivered invited lectures to doctoral students on the subjects of value management and enterprise engineering. In 2016, João has joined the Department and currently teaches organizational engineering and systems analysis and modeling.

#### Rui Filipe Fernandes Prada

**PhD:** Instituto Superior Técnico, 2005  
*Assistant Professor*  
**Phone:** +351 214 233 292  
**E-mail:** rui.prada@tecnico.ulisboa.pt  
**Webpage:** <http://gaips.inesc-id.pt/rprada>

#### Research Areas and Interests

Rui Prada works in Human-Agent Interaction and User Experience Design. In particular, he develops research on Computational Models of Social Intelligence, Virtual Characters and Applied Games.

#### Academic Info and Highlights

Rui Prada is the PI at INESC-ID of the H2020 research project RAGE and participates in research project LAW-TRAIN. He served as Associate Editor in the International Journal of Serious Games and was Program Chair of the Game Technology Track of the DiGRA/FDG 2016 conference. He is president of the Sociedade Portuguesa de Ciências dos Videojogos and coordinator of the Memorandum of Understanding between INESC-ID and NII in Tokyo. He became Senior Member of IEEE in 2015.

#### Luís Eduardo Teixeira Rodrigues

**PhD:** Instituto Superior Técnico, 1996  
*Full Professor*  
**Phone:** +351 213 100 346  
**E-mail:** ler@tecnico.ulisboa.pt  
**Webpage:** <http://www.gsd.inesc-id.pt/~ler/>

#### Research Areas and Interests

Luís Rodrigues works in the area of fault-tolerant distributed systems. He is currently interested in concurrency, replicated data management, cloud computing, dynamic networks, information dissemination, and autonomic computing.

#### Academic Info and Highlights

Luís Rodrigues serves as chair of the board of directors of INESC-ID Lisboa. He is a member of the Scientific Council of IST. In cooperation with Prof. Luís Veiga, he serves as the IST coordinator for the Erasmus Mundus European Master's in Distributed Computing and the Erasmus Mundus Joint Doctorate in Distributed Computing. With Prof. João Silva he coordinates the European project PCAS.

#### Rodrigo Seromenho Miragaia Rodrigues

**PhD:** Massachusetts Institute of Technology, USA, 2005  
*Full Professor*  
**Phone:** +351 213 100 271  
**E-mail:** rodrigo.rodrigues@inesc-id.pt  
**Webpage:** [www.gsd.inesc-id.pt/~rodrigo](http://www.gsd.inesc-id.pt/~rodrigo)

#### Research Areas and Interests

Computer systems, distributed systems.

#### Academic Info and Highlights

Program co-chair of the Eleventh European Conference on Computer Systems (EuroSys 2016).  
ERC Starting Grant (2012-2017).

#### Paolo Romano

**PhD:** Sapienza University of Rome, Italy, 2007  
*Associate Professor*  
**Phone:** +351 213 100 302  
**E-mail:** romano@inesc-id.pt  
**Webpage:** <http://www.gsd.inesc-id.pt/~romanop/>

#### Research Areas and Interests

Paolo Romano is a senior researcher at INESC-ID and a member of the Distributed Systems group. His research interests include distributed data management in cloud computing platforms, autonomic computing, programming paradigms for parallel/distributed computing, energy efficiency and performance modelling of complex computing infrastructures.

#### Academic Info and Highlights

Paolo Romano currently lectures courses in the area of dependable distributed programming. He has been serving as Program Committee Chair for several international workshops in the area of concurrent programming (Transact, WTTM) and as Program Committee member for a number of international conferences in the distributed computing and big data domain (including ICDCS, BigData, MASCOTS and CloudCom).

#### **Luís Manuel Silveira Russo**

**PhD:** Instituto Superior Técnico, 2007

*Assistant Professor*

**Phone:** +351 213 100 272

**E-mail:** luis.russo@tecnico.ulisboa.pt

**Webpage:** <http://web.tecnico.ulisboa.pt/luis.russo/>

#### **Research Areas and Interests**

Luís Russo is an *assistant professor* at the CSE Dept, IST, Univ of Lisbon. His current interests include the design and analysis of data structures and algorithms for string matching problems. He is mainly interested in succinct and compressed structures, which can be used to handle large volumes of data. His initial research focused on compressed indexed, using Lempel-Ziv data compression. He has also worked on compressed suffix tree representations. He also has a healthy interest in using the SSE instruction set to optimize algorithmic performance of his implementations.

#### **Academic Info and Highlights**

Luís M. S. Russo currently lectures courses on the analysis of algorithms and string processing with applications to bio-informatics.

#### **Francisco João Duarte Cordeiro Correia dos Santos**

**PhD:** Université Libre de Bruxelles, Belgium, 2007

*Associate Professor*

**Phone:** +351 210 407 091

**E-mail:** franciscocsantos@tecnico.ulisboa.pt

**Webpage:** <http://web.tecnico.ulisboa.pt/franciscocsantos/>

#### **Research Areas and Interests**

Research interests include the development of computational models at the interface between ecology and economics, addressing problems related with cultural evolution, cooperation, urban planning, and governance of the global commons.

#### **Academic Info and Highlights**

Associate editor of 3 scientific journals, and responsible for the area of Programming Technology and Methodology at IST. Teaches courses on algorithms, programming, and network science, for which he has received several “IST Excellence in Teaching” awards. Recipient of the “Univ. de Lisboa/Caixa Geral de Depósitos 2016” award in Computer Science & Engineering.

#### **Nuno Miguel Carvalho dos Santos**

**PhD:** Max Planck Institute for Software Systems / Saarland University, Germany, 2013

*Assistant Professor*

**Phone:** +351 213 100 347

**E-mail:** nuno.santos@inesc-id.pt

**Webpage:** <http://www.gsd.inesc-id.pt/~nsantos/index.html>

#### **Research Areas and Interests**

Nuno Santos carries out his research in the Distributed Systems group at INESC-ID Lisbon. His research focuses on security and trust computer systems in the areas of cloud computing and mobile devices. He has built several systems aimed at improving trust in the cloud, enterprise, and mobile platforms by leveraging trusted computing hardware, namely TPMs and ARM TrustZone.

#### **Academic Info and Highlights**

Teaching 2015-2016: Mobile Computing, Architectures for Embedded Computing, Computer Organization, Forensic Cybersecurity.

#### **Pedro Manuel Guerra e Silva Reis dos Santos**

**PhD:** Instituto Superior Técnico, 2000

*Assistant Professor*

**Phone:** +351 214 233 297

**E-mail:** reis.santos@tecnico.ulisboa.pt

**Webpage:** <http://web.tecnico.ulisboa.pt/reis.santos/>

#### **Research Areas and Interests**

Stochastic simulation and construction and validation of simulation meta-models. Compilers and language compilation, interpretation, simulation and runtime support.

#### **Academic Info and Highlights**

Pedro Reis dos Santos currently lectures courses on Software Engineering and Object-Oriented Programming.

**José Alberto Rodrigues Pereira Sardinha**

**PhD:** Pontifícia Universidade Católica do Rio de Janeiro, Brasil, 2005  
*Assistant Professor*  
**Phone:** +351 214 233 291  
**E-mail:** jose.alberto.sardinha@tecnico.ulisboa.pt  
**Webpage:** <http://web.tecnico.ulisboa.pt/ist25149/>

**Research Areas and Interests**

José Alberto R. P. Sardinha is an *assistant professor* (DEI - IST) and a senior researcher at INESC-ID. Prof. Sardinha's research interests include the elds of automated trading agents, multi-agent systems, machine learning, agent-oriented software engineering and automated software engineering.

**Academic Info and Highlights**

Prof. Sardinha is a senior researcher of the INSIDE research project, funded under the Carnegie Mellon|Portugal program, which investigates the use of robotic technology for therapeutic purposes.

**Pedro Daniel Barbosa Sequeira**

**PhD:** Instituto Superior Técnico, 2013  
*Invited Assistant Professor*  
**Phone:** +351 965 744 765  
**E-mail:** pedro.sequeira@gaips.inesc-id.pt  
**Webpage:** <http://gaips.inesc-id.pt/~psequeira>

**Research Areas and Interests**

Artificial Intelligence; Reinforcement Learning; Intrinsic Motivation; Multiagent Systems.

**Academic Info and Highlights**

Has been a post-doc since 2013 at GAIPS / INESC-ID after completing a PhD in information Systems and Computer Engineering at IST supervised by Ana Paiva and Francisco Melo. His thesis focused on building flexible and robust reward mechanisms for RL agents. His interests include adaptive agents, learning and evolutionary mechanisms, and his approach has been inspired by biological mechanisms. He has participated in INSIDE (CMU-Pt), EMOTE (FP7), E-Circus (FP6) and CoWriter (EPFL-IST) projects and given classes for the Autonomous Agents and Multiagent Systems, Human-Computer Interaction and Computer Graphics courses at IST.

**Alberto Manuel Rodrigues da Silva**

**PhD:** Instituto Superior Técnico, 1999  
*Associate Professor with Habilitation*  
**Phone:** +351 213 100 307  
**E-mail:** alberto.silva@tecnico.ulisboa.pt  
**Webpage:** <http://isg.inesc-id.pt/alb/>

**Research Areas and Interests**

Alberto Silva is senior researcher at INESC-ID. His main academic and research interests are in the areas of information systems, software engineering, model-driven engineering, requirement engineering, social computing and project management, with multidisciplinary application domains.

**Academic Info and Highlights**

Teaches IT Project Management, and Systems Analysis and Modeling. Track co-chair of the QUATIC 2016 International Conference. PC Member of several international conferences. Coordinator of the RSLingo and MDDLingo initiatives available at GitHub, Coordinator of the RSLingo4Privacy, TT-MDE-Mind-bury and dDocs projects.

**António Manuel Ferreira Rito da Silva**

**PhD:** Instituto Superior Técnico, 1999  
*Associate Professor*  
**Phone:** +351 210 407 075  
**E-mail:** rito.silva@tecnico.ulisboa.pt  
**Webpage:** <http://web.tecnico.ulisboa.pt/~rito.silva>

**Research Areas and Interests**

Member of INESC-ID's Software Engineering group. His research interest focuses on social software engineering and business process management, namely, software development process as a social construct and software tools as social enablers, capture of end-users tacit knowledge using non-intrusive methods and tools, and integration of activity-based and goal-based approaches to business process modelling and execution.

**Academic Info and Highlights**

Teaches the Software Engineering and Software Architecture courses. Member of the No Problem Has a Solution FCT-funded project where he is responsible for the software architecture of the collaborative digital archive of Fernando Pessoa's Book of Disquiet and actively contributes to its code base.

#### **Luís Jorge Brás Monteiro Guerra e Silva**

**PhD:** Instituto Superior Técnico, 2009  
*Assistant Professor*  
**Phone:** +351 213 100 260  
**E-mail:** luis.g.silva@tecnico.ulisboa.pt  
**Webpage:** <http://algorithms.inesc-id.pt/~lgs>

#### **Research Areas and Interests**

Luís Guerra e Silva is a senior researcher at the Algorithms for Optimization and Simulation (ALGOS) group at INESC-ID. His research interests are mainly focused on the design of efficient algorithms and data structures for applications in hardware and software verification, particularly in the field of electronic design automation. Recently, he also developed an interest in software engineering and enterprise information systems.

#### **Academic Info and Highlights**

Luís Guerra e Silva is vice-president of IST for Information and Communication Technologies, where he leads the Network and Computer Services division. He teaches courses on programming, algorithms and software verification.

#### **Mário Jorge Costa Gaspar da Silva**

**PhD:** University of California, Berkeley, USA, 1994  
*Full Professor*  
**Phone:** +351 213 100 360  
**E-mail:** mario.gaspar.silva@tecnico.ulisboa.pt  
**Webpage:** <http://web.tecnico.ulisboa.pt/mario.gaspar.silva/>

#### **Research Areas and Interests**

Mário J. Gaspar da Silva is a senior researcher at INESC-ID. His research interests span intelligent information systems and digital libraries, including information access methods, heterogeneous data integration (mainly web, biomedical and geographic data), information retrieval and text mining.

#### **Academic Info and Highlights**

Mário J. Gaspar da Silva coordinates the Research Line of Excellency in Large-Scale Data Management (DataStorm) and the Campus Segment of EIT Health at IST and Universidade de Lisboa.

#### **Miguel Leitão Bignolas Mira da Silva**

**PhD:** University of Glasgow, Scotland, 1996  
*Associate Professor*  
**Phone:** +351 213 100 444  
**E-mail:** mms@tecnico.ulisboa.pt  
**Webpage:** <http://web.tecnico.ulisboa.pt/ist13948>

#### **Research Areas and Interests**

Digital transformation, enterprise architectures, and IT governance.

#### **Academic Info and Highlights**

Responsible for several courses (including online) about information systems. Invited professor at FEUP. Several “Excellence in Teaching” awards. Coordinator of the Master in Information and Enterprise Systems (MISE) a new online master degree. Leader of the Digital Transformation research group at INOV INESC Inovação with 300K€ average yearly revenue. Published more than 150 scientific papers in international journals and conferences. Supervised five PhD theses and more than 100 master theses. Member of ACM, IEEE, and AIS.

#### **Pedro Manuel Moreira Vaz Antunes de Sousa**

**PhD:** Instituto Superior Técnico, 1997  
*Associate Professor*  
**Phone:** +351 966 908 121  
**E-mail:** pedro.manuel.sousa@tecnico.ulisboa.pt  
**Webpage:** <https://fenix.tecnico.ulisboa.pt/homepage/ist12951>

#### **Research Areas and Interests**

Enterprise Architecture

#### **Academic Info and Highlights**

Responsible for new courses such as “Enterprise Architecture” and “Engineering and Technology Business Process. Regarding the market, I’ve done professional services in SW Engineering to Information Systems Architecture (ISA) in major companies as for example:

- Brazil: Votorantim Bank, Petrobras, Caixa Seguros, Serasa Experience.
  - Germany: Schufa,
  - Luxemburg: European Investment Bank, European Investment Fund
  - Portugal: EDP, SonaeMCH, Otimus, , University Hospitals of Coimbra, Fidelidade, Portugal Telecom, CGD, BPI, ESI,
- I’ve also responsible for the development of the Enterprise Architecture EAMS tool ([www.linkconsulting.com/eams](http://www.linkconsulting.com/eams)).

**José Manuel Nunes Salvador Tribolet**

**PhD:** Massachusetts Institute of Technology, USA, 1977

*Full Professor*

**Phone:** +351 965 041 026

**E-mail:** jose.tribolet@tecnico.ulisboa.pt

**Webpage:** <https://sites.google.com/a/josetribolet.com/josetribolet/>

**Research Areas and Interests**

José Tribolet is senior researcher at the Information Systems group at INESC-ID. His main academic interests are in the areas of enterprise architecture, engineering, governance, and transformation, with emphasis on the role played by enterprise information systems.

**Academic Info and Highlights**

President of the Department of Computer Science and Engineering (DEI).

President of INESC - Institute for Systems and Computers Engineering.

Promoter of the Centre for Organizational Design & Engineering at INESC-IOV. Coordinator of POSI-E3, the P/P/G professional postgraduate course on Software and Information Systems Engineering of IST (3rd degree Bologna diploma).

**André Ferreira Ferrão Couto e Vasconcelos**

**PhD:** Instituto Superior Técnico, 2007

*Assistant Professor*

**Phone:** +351 962 354 819

**E-mail:** andre.vasconcelos@tecnico.ulisboa.pt

**Webpage:** <https://sites.google.com/site/vasconcelosandre/>

**Research Areas and Interests**

Research activities have focused in the area of Enterprise Architectures and Information Systems, particularly:

- Representation, Modelling and Survey of Architectures of information systems, including through the definition and development of its own framework Architectures modeling of information systems, formalized by a UML profile;
- Architectures and Information Systems Evaluation, with the metrics specification and architectural qualities.

**Academic Info and Highlights**

André Vasconcelos has developed his academic activities within the DEI. He taught 24 courses and was regent of 7 of these chairs.

In terms of research, he participated in 10 projects, mentored 45 master's degrees and doctorates 3, developed 30 presentations by invitation and 73 publications.

**Luís Manuel Antunes Veiga**

**PhD:** Instituto Superior Técnico, 2007

*Associate Professor*

**Phone:** +351 213 100 292

**E-mail:** luis.veiga@inesc-id.pt

**Webpage:** <http://www.gsd.inesc-id.pt/~lveiga/>

**Research Areas and Interests**

Luís Veiga, Senior Researcher at INESC-ID, Group Manager of Distributed Systems Group, Vice-Coordinator of Computing Systems and Computing Networks Laboratory. His research interests: distributed systems, virtual machines, cloud and grid computing, data management and processing, peer-to-peer systems, mobile middleware.

**Academic Info and Highlights**

Local Coordinator of FP7 CloudForEurope project, participant in FP7 Timbus project on digital preservation and virtualization. He led 2 National research projects on P2P cycle-sharing and virtualization, and locally 2 on distributed virtual machines and multicore programming. Member of Scientific Board of EM European Msc and Joint PhD in Distributed Computing, MSc in Telecommunications and Informatics Engineering. Best Researcher Award Nominee at INESC-ID Prize 2015. Program Committee Chair, 7º Simpósio de Informática (INFORUM 2015). Workshop Chair, 5th International Workshop on Cloud Data and Platforms (CloudDP'15), colocated with ACM EuroSys 2015.

Guest Editor, Special Issue on New Trends in Computational Science and Engineering, Journal of Computational Science, Elsevier. Chair, IEEE Computer Society Chapter, Section Portugal, 2015.

**Andreas Mirolaus Wichert**

**PhD:** University of Ulm, Germany, 2000

*Assistant Professor*

Phone: +351 214 233 231

E-mail: andreas.wichert@tecnico.ulisboa.pt

Webpage: <http://web.tecnico.ulisboa.pt/~andreas.wichert/>

**Research Areas and Interests**

Artificial intelligence, neuronal networks, cognitive systems, brain imaging, hierarchical indexing structures, quantum computation.

**Academic Info and Highlights**

Published one international book 2015 and six journals. Excellence result in teaching for Decision Support Systems 14/15 and Intelligent Multimedia Databases 14/15.

## 10. Selected Publications

Abou-Jaoudé, W., Monteiro, P. T., Naldi, A., Grandclaoudon, M., Soumelis, V., Chaouiya, C., & Thieffry, D. (2014). Model checking to assess T-helper cell plasticity. *Frontiers in bioengineering and biotechnology*, 2. doi: 10.1101/012641

Abou-Jaoudé, W., Traynard, P., Monteiro, P. T., Saez Rodriguez, J., Helikar, T., Thieffry, D., & Chaouiya, C. (2016). Logical modeling and dynamical analysis of cellular networks. *Frontiers in Genetics*, 7, 94. doi: 10.3389/fgene.2016.00094

Aksoy, L., Flores, P., & Monteiro, J. (2015). Exact and approximate algorithms for the filter design optimization problem. *IEEE Transactions on Signal Processing*, 63(1), 142-154. doi: 10.1109/tsp.2014.2366713

Aksoy, L., Flores, P., & Monteiro, J. (2016). A novel method for the approximation of multiplierless constant matrix vector multiplication. *EURASIP Journal on Embedded Systems*, 2016(1), 1-11. doi: 10.1109/euc.2015.27

## **Biennial Report 2015-2016**

### **Coordination**

Ana Teresa Freitas  
Maria dos Remédios  
José Delgado  
Lurdes Farrusco

### **Layout and design**

Núcleo de Multimédia e e-Learning

### **Campus Alameda**

Av. Rovisco Pais, 1  
1049-001 Lisboa, Portugal  
**Tel:** +351 218 417 784

### **Campus Taguspark**

Av. Professor Cavaco Silva  
2780-990 Porto Salvo, Portugal  
**Tel:** +351 214 233 503
